saunas

# INTRODUCTION

Our sun creates a combination of visible and invisible lights. Though, the most invisible spectrum to the eye is infrared rays. These inconspicuous infrared wavelengths are responsible for making the sun feel warm. (the ultraviolet wavelengths make the sun bright) Scientists have established that infrared waves are beneficial to the human body as they increase thermal energy within us. Infrared does exactly this, just without the harmful rays of sunlight

The most advanced technology and modern design converge in the New Full Spectrum Infrared Sauna. Equipped with ceramic and carbon heaters, this allows for the full benefits of infrared heat to penetrate deep into the skin. Use our mobile app and Smart Sauna Wi-Fi Controller to turn on/off the sauna, regulate the heat intensity and adjust the chromotherapy features.

saunas

# BENEFITS

Improves immunity levels

Skin improvement

Reduction of stress and fatigue

Increased Metabolism

Reduces muscle pain

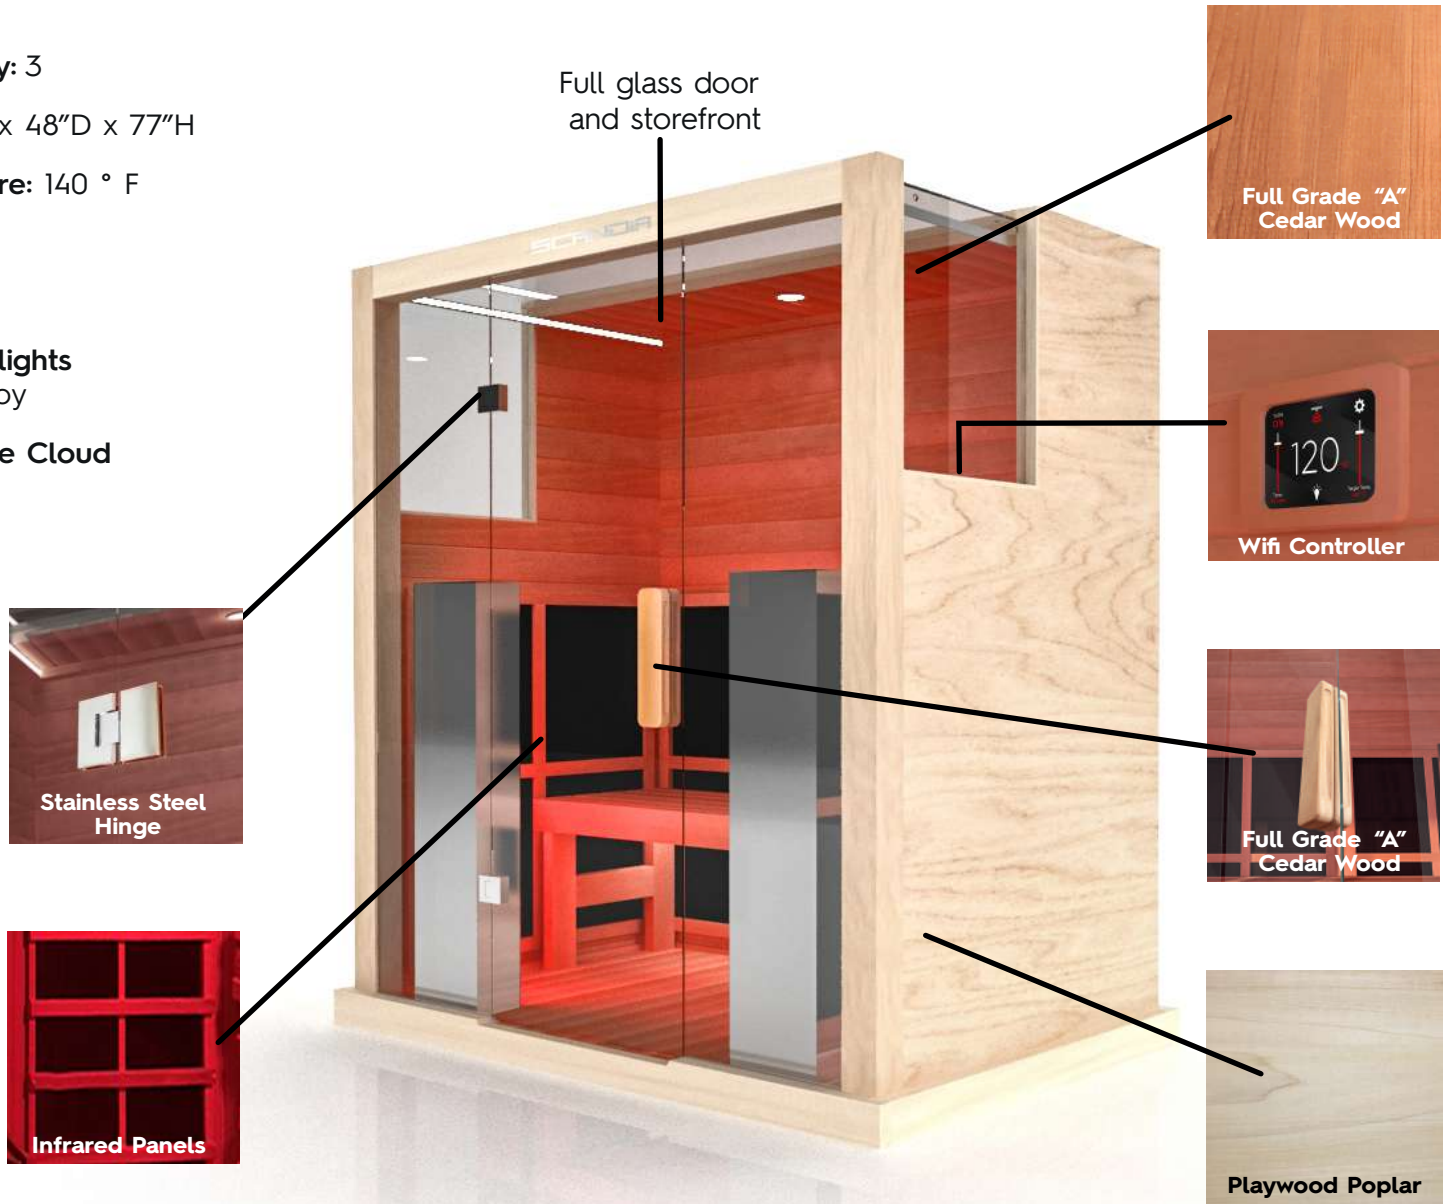

Detoxification

# FEATURES

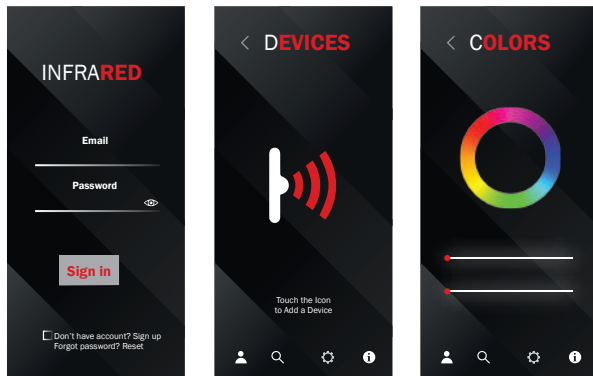

-  **Seating Capacity:** 3
-  **Measures:** 71"W x 48"D x 77"H
-  **Max. Temperature:** 140 ° F
-  **Weight:** 590 lb
-  **Power:** 220V
-  **Integrated LED lights**  
w/ Chromotherapy
-  **Integrated to the Cloud**

# SMART INFRARED APP

Although our Smart WiFi Controller and the Smart Infrared app are similar, it is ideal to download both.

The main feature of the Infrared app is having the ability to control your Infrared from anywhere in the world. This app allows you to turn your Sauna on, regulate its temperature, and chromotherapy lights.

Our apps are available in:
