

A photograph of a sauna heater unit with a wooden guard rail. The heater is dark grey or black with a silver top section where several dark, smooth stones are placed. The guard rail is made of light-colored wood with horizontal slats. The background is a wall of vertical wood planks. In the top right corner, there is a partial view of an orange circular graphic. In the bottom left, there is a white rectangular box containing the text 'saunas.com' and a hand cursor icon. In the bottom right, there is the 'saunas' logo with a flame icon above the letter 'a'.

SAUNA HEATER GUARD RAIL

 **saunas**

INTRODUCTION

The Ultra Sauna Heaters can reach temperatures up to 180° F, so it is essential to read all the disclaimers before and after assembly and maintain safety measures.

Available in three different models and sizes, suitable for electric and gas heaters.

The sauna heater guard rail is an elegant protection barrier made of natural cedar wood. Preserving safety in your sauna never looked so good.
