Instructions

1. Print the pattern page and measure the 1" test square to ensure printing is to scale. Print with Adobe Acrobat for best results. Printer should be set at 100%.
2. Trace the applique pieces onto freezer paper. Rough cut around the shapes. Attach shapes to the wool (shiny side down) and adhere with hot iron. Cut carefully around the shapes.
3. Blanket stitch the jelly to the front fabric. Use applique pins to hold the shapes in place.
4. Whip stitch the front wool to the back wool.
5. Use fusible to attach the flannel back to the back wool. Press with a hot iron. Slide the needle between the wool and the fusible and blanket stitch both together.
6. Give a final long press on the back and trim the threads.

I do my best to make correct patterns, however; errors do sometimes occur. Please notify me if you find an error in the pattern or instructions.
