## Instructions

1. Print the pattern page and measure the 1" test square to ensure printing is to scale. Print with Adobe Acrobat for best results. Printer should be set at 100%.
2. Cut around the 6" x 9" rectangle and use it to cut front and back fabric and one fusible fleece. Attache the fusible fleece to the front fabric.
3. Trace the applique pieces onto fusible web. Rough cut around the shapes. Attach shapes to the wrong side of fabric and fuse. Cut carefully around the shapes.
4. Attach the green grass section to the main fabric and quilt lines lengthwise.
5. After quilting, apply the rest of the shapes and sew around the appliques with a straight stitch or a zig-zag stitch. Play with other stitches that you may like and have on your machine.
6. Place front and back right sides together and sew around with a 1/4" seam allowance. Leave an opening of 3-4" on one side for turning.
7. Trim the corners and seam allowance to 1/8". Do not trim the seam allowance on the side that has the opening.
8. Turn right side out, push out corners, tuck the opening in on itself and press. Topstitch around the outer edge. Enjoy your Easter Mug Rug!

*I do my best to make correct patterns, however; errors do sometimes occur. Please notify me if you find an error in the pattern or instructions.*

Tutorial

Pattern is reversed if using fusible and right side if using freezer paper. Either way works!

1" Test Square
