	placed inside the microwave. Not microwaveable.	www.sewoutsidethebox.com

## Instructions

- 1. Print the pattern page and measure the 1" test square to ensure printing is to scale. Print with Adobe Acrobat for best results. Printer should be set at 100%.
- 2. Fold your fabric and place pattern edge on the fold to cut. Mark the dart lines with chalk. Cut 2 batting also.
- 3. Layer inside fabric and batting and outside fabric and batting. Mark an X from corner to corner on each fabric piece. Sew along the Xs. A walking foot is useful if you have one.
- 4. Fold fabric sections in half and draw lines from your dart marks. Marks are at 1" on the short side and 2" on the long side along the fold. Connect the line and sew the dart. Backstitch at the end (point) of each dart. Each fabric section will have four darts.
- 5. Trim the dart bulk down to 1/4" on both fabric sections.
- 6. Place the inside and outside pieces right sides together. Line up the seams. Clip or pin around leaving an opening for turning.
- Sew around with a 3/8" seam allowance. Backstitch at the beginning and end of opening. Clip the curves.
- 8. Turn right side out, push out corners, tuck the opening in on itself and press.
- 9. Topstitch around the outer edge.

I do my best to make correct patterns, however; errors do sometimes occur. Please notify me if you find an error in the pattern or instructions.
