Instructions

1. Add fusible fleece to the pillow back and quilt as desired. Pillow back can be slightly larger than pillow top. Cut the pillow back in half.
2. Cut pillow flap 4" x width of pillow. Fold in half lengthwise and press.
3. Line up top section of pillow top with raw edges of the folded fabric. Place zipper right side down lining up the outer edge. Sew with a zipper foot.
4. Press the flap and zipper away from the pillow back and topstitch. This will hold the zipper tape down on the back of the zipper top.
5. Place the other back piece right sides together with the first back piece and line up with the edge of the zipper. Sew and topstich. Zipper is attached and zipper tape is sewn down along the pillow back.
6. Square up the pillow top if you haven't already done so.
7. Open the zipper and place the pillow front and back right sides together.
8. Trim the pillow back to match the pillow top. Then clip or pin and sew around with a 1/4" seam allowance. Use a walking foot if you need one and go over the zipper several times to hold it in place.
9. Turn right side out, press, and finish up by adding a pillow!

I do my best to make correct patterns, however; errors do sometimes occur. Please notify me if you find an error in the pattern or instructions.
