FEATURES AND BENEFITS

Track every litre of fuel or fluid dispensed with the iFUEL Lite Online terminal, the next generation of entry level Fuel Management terminals, utilising contactless technology and automated transaction synchronisation via 3G/4G for secure and controlled refuelling.

The Lite Online solution provides cost effective Fuel Management with vehicle/driver and stock reporting via the secure iFUEL website.

Our iFUEL website is a money saving business tool providing user friendly reporting and reconciliation.

Access iFUEL from any web enabled PC, tablet or smartphone eliminating the requirement for software installed on only one PC. Users have unlimited access to the website and in addition, permission for restrictions around transaction editing can be applied.

iFUEL LITE ONLINE OFFERS

- Secure contactless technology to track every litre
- Automated transaction uploads via 3G/4G technology ideal for unmanned sites
- Choose the time at which your once-a-day transaction upload is carried out removing the need to visit the terminal
