

50 YDS MIL TARGET

CUT OR TEAR ALONG DOTTED LINE AND KEEP AT BENCH FOR REFERENCE

This is a 50 yard MIL target designed for zeroing and tracking of your MIL optic. All target dimensions are in MILS, unfortunately printing of this target from a home printer will inevitably result in a slightly scaled down version of the target, fortunately the difference is insignificant and is of no concern.

Grid pattern in background = 1" squares.
4 corner boxes are .125 MIL x .125 MIL and are 6" on center, these can be used for tracking purposes.
The red center ring is .125 MIL in diameter with a 1/5 MIL circle inside of it. Outer red ring @ .5 MIL Ø
The congruent rings are .125 MIL apart at the thicker rings.

1/10 MIL = .18" @ 50 YDS
.25 MIL = .45" @ 50 YDS
.5 MIL = .9" @ 50 YDS
1 MIL = 1.8" @ 50 YDS
2 MIL = 3.6" @ 50 YDS

ATIBALSIGHTS.COM

TREAT EVERY WEAPON AS IF IT WERE LOADED
KEEP THE WEAPON ON SAFE UNTIL YOU ARE READY TO FIRE
NEVER POINT A WEAPON AT ANYTHING YOU DO NOT INTEND TO SHOOT
ALWAYS KEEP YOUR FINGER STRAIGHT AND OFF THE TRIGGER UNTIL YOU ARE READY TO FIRE
