#### aroma therapy

## spalogic

Spalogic offers a cost effective extensive range of pure and natural essential and carrier oils.

Our mission of providing only the best quality products has been achieved by working hand in hand with reputable suppliers who have been producing essential oils for many years. Our formulations adhere to strict criteria for stability, safety and efficacy and products are approved and launched only when these criteria are met. In addition to the wide range of essential oils and carrier oils, Spalogic also offers you other products to include in your Aromatherapy treatment, such as base cream, base gel and sea salt.

Base Cream

Base Cream

### Base Cream

Add a few drops of any essential oil to this vegetable base cream to create your own aromatherapy based massage cream, face cream, or body cream. For extra slip in massage treatments, add any carrier oil to the cream.

Base Gel

Base Gel

#### Base Gel

Add a few drops of any essential oil to this aloe vera based gel to create your own aromatherapy based skin gel.

## spalogic base products & carrier oils

{AROMATHERAPY}

Grapeseed oil

Grapeseed oil

Grapeseed oil
AROGR2: 1 litre

Grapeseed oil AROGR5: 5 litre

# spalogic carrier oils {AROMATHERAPY}

"In all things of nature there is something of the marvelous" ARISTOTLE

Jojoba oil

Jojoba oil

#### Jojoba (Simmondsia Chinesis)

AROTT: 10 ml Possible uses: Fungal infections, acne, blemishes, psoriasis

(Cananga Odorata) Anxiety, toning, insomnia

### how to use essential oils:

- IN A BASE CREAM, LOTION OR GEL: Add 20 drops per 50g.
- IN MASSAGE OIL: Add 10 drops per 20ml.
- IN VAPORIZER OR BURNER: Mix 6 drops with water.
- IN A ROOM SPRITZ: Add 10 drops to 250ml water.
- IN A HAND OR FOOT BATH: Add 7 drops to lukewarm water.

## helpful tip:

When adding essential oils to water such as a foot or hand bath, mix the essential oil with one dessert spoon of apple cider vinegar or with some powdered milk before adding it to the water to help disperse the oil.

## spalogic pre-blended range

{AROMATHERAPY}

**Energizing** BRFN100: 100 ml

**Energizing** BREN500 : 500 ml

Muscle Relaxant

BRMU500: 500 ml

### Rock Rose Beauty oils are prayerfully blended to have a physical and spiritual impact.

Rock Rose Beauty was born in 2007. Naomi Sheneberger owned a successful beauty clinic in Stellenbosch, Cape Town, South Africa. She was inspired to create a range of beauty, massage and anointing oils that not only provide therapeutic benefits, but will also bring spiritual and emotional release. Zambia is currently home to her and her husband Robb. Zambians have a respect for the medicinal value in plants and trees, and it has added to her understanding of the use of these oils. The Rock Rose Beauty oils have been carefully blended to treat specific skin conditions and emotional concerns. Oils in the range includes the following: Acacia, Aloe, Calamus, Cassia, Cedar, Cinnamon, Coriander, Cypress, Frankincense, Galbanum, Hyssop, Myrrh, Myrtle, Onycha, Pomegranate, Rose of Sharon, Sandalwood and Spikenard.

Relaxing

BRRF100: 100 ml

Nexbase, Lavender, Lemon, Neroli. An effective de-stressing aid when used as body massage oil or as a bath oil.

The content of the kit was correct at date of publishing, but may change without prior notice

#### Nail Safe Styptic Powder

Aloo5: 30 ml Stops bleeding instantly. This no-contamination applicator sprays a fine powder to stop bleeding on contact. 100% hygienic.

#### Nail Safe Primer

Al007: 7.5 ml
Dehydrates the nail to a chalky finish. PH balances the nail and prepares the nail for proper adhesion of the acrylic.

#### Nail Prep & Protect

Al008 : 7.5 m

Acid free, cleanses and sanitizes. Designed for sensitive clients who cannot use primer or to be used with problem clients who need extra dehydration. It draws out moisture, oil and contaminants from the tiny spaces between the layers of the natural nail.

#### Infection Protection

Al009: 7.5 ml The first step to healthy nails. Kills bacteria and fungus on contact.

### helpful hint:

#### **Acrylic Powder**

Cross linked polymer, Supernail chose a cross linked chemistry of polymers for their acrylic system that creates the additional strength and durability. This formulated blend also gives the acrylic the flexibility clients demand. No Crystallization. Advanced colour stabilizers ensure no yellowing or discolouration.

Acrylic Powder Clear Al010 : 56 g

Acrylic Powder Pink Al011 : 56 g

Acrylic Powder White AI012:56 g

#### **Acrylic Liquid**

Supernail liquid is an Ethyl Methacrylate based monomer with chemical stabilizer to deter chemical sensitivity. Supernail stays pliable as long as you are shaping it. The combination of the cross link polymer with the flexability of the monomer give the nails more strength. Self leveling stabilizers. Low odour

Acrylic Liquid Al013:59 ml

Acrylic Liquid Al014 : 236 ml

## supernail menders & wraps {ARTIFICIAL NAILS}

#### disinfectants

The difference between sterilization, disinfection, antisepsis and sanitizing: Sterilization is an absolute term meaning complete destruction or removal of all viable micro-organisms and spores. Disinfection describes the elimination or destruction of micro-organisms, but not usually bacterial spores. High level disinfectants will kill most vegetative microorganisms but will not kill the more resistant bacterial spores. Medium level disinfectants will kill fungus and mold

and will also cause the destruction of the more resistant types of viruses. Not effective against spores. Low level disinfectants kills bacteria, but not effective against spores, fungus, mold or viruses. Antiseptic is the destruction of microorganisms, but not bacterial spores, on living tissue (skin). To sanitize means to reduce the number of microorganisms to a safe level. May or may not necessarily destroy pathogenic or disease causing bacteria.

## how should I sterilize?

Salons can harbor dangerous infection-causing bacteria and viruses, including methicillin-resistant Staphylococcus aureas and hepatitis B. If precautions are not taken, blood-borne viruses such as hepatitis B, Hepatitis C, HIV and a range of bacterial, fungal and viral infections can be transmitted to clients or therapists by contaminated equipment or unhygienic premises and procedures. A salon can be held liable for the medical costs for any client that gets an infection from the salon.

## how do I reduce the risk to my salon?

Instruments should be cleaned and disinfected between customers (You can use the Wet wipes with Cold Sterilant formulation which is a high level disinfectant formulation or Sterifog spray) and thoroughly sterilized (You can use Cold Sterilant Liquid) at the end of each day and kept in a UV steriliser overnight to ensure that it remains sterilized. Hands should be sanitized in between clients with a waterless hand sanitizer such as Quadex Sterigel waterless hand sanitizer. Work stations should be properly disinfected in between clients and at the end of the day, use a medium to high level disinfectant such as Bacterinil that comes in a convenient 1L Spray bottle (now also available in wet wipes for your convenience to use in-between treatments). Foot spa's should be sterilized in between clients, foot spa liners can also help limit the spread of infection, by replacing the foot spa liner in-between clients. For foot spa liners see Consumable category. Use a anti-fungus treatment with every pedicure, manicure and artificial nail treatment. Use clean towels with every client. Wear gloves wherever possible especially with wax treatments. When dispensing products such as scrubs, lotions etc. always use a spatula. Wherever possible use bottles with pump action or products in tubes...

## **Quadex International** {DISINFECTANTS}

WHAT IS QUADEXTM? QUADEXTM is the active ingredient used in our range of high level disinfectants and sterilants. QUADEX<sup>TM</sup> is an Amine/Guanide derivative widely used in aqueous personal products such as eye drops, lotions and creams. The antiseptics belong to the biguanide group, which are cationic substances well known for their effective action against microbial infection. QUADEX™ kills in applicable situations 99% + microbes such as bacteria, viruses, fungi, algae, spores and dust mites. QUADEX has a residual killing effect in excess of 30 days. Quadex products has rust inhibitors to ensure that your implements do not rust when properly cleaned with distilled water. QUADEX is SABS approved.

**Cold Sterilant** B02:1 litre

**Cold Sterilant** B22: 5 litre

#### **Cold Sterilant**

Steriliser. Rapid, non-toxic, cold sterilisation in 30 minutes For safe, cold sterilisation and disinfecting of surgical instruments and heat sensitive equipment. Cold Sterilant provides the perfect answer. It is non-toxic, noncorrosive, non-irritating, non-staining, non-caustic, non-carcinogenic, pH neutral and is biodegradable. It contains no aldehydes, phenol or chlorine. Its action is rapid, disinfecting in five minutes, sterilising in 30 minutes and with a residual activity that keeps on killing microbes for up to 30 days.

**Wet Wipes** ( Cold Selerant)

Wet Wipes ( Cold Selerant)

**Wet Wipes** 

(Bacterinil Formula)

BacteriniI™

Bacterinil™

#### Bacterinil™

Residual action, non-toxic medium disinfectant. A broad spectrum, ready to-use general disinfectant, Bacterinil is recommended for disinfecting during normal day-to-day activities. All that is required is to thoroughly clean the specific area, spray on Bacterinil and leave to dry. No rinsing or wiping is required. Like Cold Sterilant™, it is nontoxic, non-corrosive, non-irritating, nonstaining, non-caustic, non-carcinogenic, pH neutral and is biodegradable. It contains no aldehydes, phenol or chlorine.

how to sterilize implements with

Dilute 1 part Instrument Cleaner with 20 parts Distilled water in a plastic

container (stays active for 5 days in container with lid). Place implements in

liquid and leave for 15 minutes. Make sure implements to do not connect in the plastic container. For plastic container with lid see Tools category.

Pour Distilled water into a plastic container. Rinse implements in Distilled water. Always used Distilled water and not tap water to clean implements.

Place instruments in a plastic container that has a lid with Cold Sterilant

and leave for 30 minutes. Use gloves or a sterilized tong to remove

Replace every 30 days after light to moderate use. To ensure you keep it for

the correct amount of days, mark the lid with the start of use date.

For electrical sterilisers see Equipment category. For distilled water

SteriFog<sup>™</sup>

Anti-microbial misting involves the use of STERIFOG™ and an aerosol micron diffuser to create a dry mist that permeates an entire small

room facility up to 50 cubic meters. It's a form of

germicidal shock treatment that bonds to virtually

everything - killing 99.9% of all microbes that

cause illness and odours. Sterifog cans is a two

step disinfecting process. STEP 1 Use Sterifog Disinfectant Fogger to treat EXPOSED areas e.g.

waiting room, reception area and therapy rooms

STEP 2 Use Sterifog Disinfectant Spray to treat UNEXPOSED (Hidden) areas. e.g. – under sinks,

waste bins, door handles, under desks, shower floor,

on cat litter boxes, Motor Vehicle air-conditioning

Bacteria, Viruses, Fungi, Mildew, Mold and odours

vents, Motor car interiors etc. Kills Dust Mites

LED Gel Lamp 12 Watt A007K : Each Comes with Timer. Lifespan: 35 000 - 50 000 hours

For Sina Black lead

365mm

## UV lamp vs LED lamp:

Before choosing what lamp to use, ensure that the product you are using can be cured with both. Both UV and LED lamps utilises UV light to cure nail gel. UV Lamps are generally more affordable but the curing time is much longer, on average about 2 minutes. Whereas LED lamps are more expensive but curing time is typically 30 seconds. The UV lamp's bulbs need to be replaced periodically, the LED lamp's bulb last the life of the lamp and never need replacement, the life span of the LED lamp is between 35 000 and 50 000 hours - which is between 2 000 and 3 500 sets of nails, after which the entire lamp will need to be replaced.

## hot cabinets {EQUIPMENT}

#### **Facial Steamer**

J001CCC : Eacl

Includes stand on wheels. Comes with Ozone. Ionic Component for high quality steam. Timer. Height adjustable.

Proquip

### Important info:

Never use your steamer if water levels are low as this can cause your element or thermostat to burn out. Only use distilled water (purified water is not the same as distilled water) with facial steamers. Pour distilled water into the heat resistant glass jar through the filler spout. Do not fill it over the top red line. The vapour will start coming out of the nozzle 5 - 10 minutes after switching on the steamer. Only once the vapour appears can the ozone be switched on, failure to do this can cause damage to the globe. Never pull the steamer by its arm, use the handles around the steamer body. Never put the essential oils directly into the glass beaker only use essential oils if a separate receptacle is provided, not all facial steamers can be used for aromatherapy, ensure that you have a facial steamer that has been modified to use with aromatherapy oils.

Facial Steamer Glass Cup J003 : Each For J001 With timer.

#### **Galvanic Machine**

G004 : Each

Consumption is continually adjustable between 0-3mA. Polarity can be changed from positive to negative. Ideal for deep cleansing facial treatments - disincrustation. Stimulates the circulation of blood to dry skin. Also for treatment of certain conditions which require specific ionised gels or lotion to be propelled into the skin. 21 x 20 x 12 cm

#### **Galvanic Pincette**

G013 : Each

Active electrode. Wrap this in lint or cotton wool soaked in a salt saline solution or an ionthophoresis lotion

**Galvanic Electode** 

Pocket

G012 : each Cover for hand held conductor. 13 x 3.4cm

#### **Galvanic Roller with Wire**

G006 : each

Metal roller electrodes may be used covered or uncovered. Usually used in pairs but connected to the same outlet

#### **High Frequency** Machine

H001C : Each

White Casing. Includes 3 electrodes. Fully adjustable frequency control system.

#### **High Frequency Machine** Delux

H001B : Each

White Casing. Includes 4 electrodes: Mushroom, Teardrop, Sparking and Indirect. Insulated Electrode Holder for electrodes included. 43.5 x 20 x 30 cm

**High Frequency Probe** H004: Each

High Frequency Electrode - Hoof

H002E : Each

Use for direct high frequency. Ideal for shoulder, neck and back treatments

#### **High Frequency Electrode - Indirect**

H002A : Each

For client to hold in hand when doing Viennese Massage. The current passes through the electrode and increases circulation in the client. The therapist is part of the circuit when performing this treatment.

#### **High Frequency Electrode - Comb**

H002D : Each

Made of glass with metal connections on one end. A very small amount of air, neon or mercury, is sealed inside the tube. Use for direct high frequency. For treating clients with dandruff or oily hair.

#### **High Frequency Electrode - Mushroom**

H002B : Each

Used for direct high frequency all over the face. Gauze can be used with this electrode. Oily Skin Treatment time:

5 to 7 minutes

#### **High Frequency Electrode - Sparking**

H002C : Each

For sparking after extraction on specific areas and caustersing individual pores. Care should be taken to use a low current with this electrode

#### **High Frequency Electrode - Teardrop**

H002 : Each

For all small areas such as the area around mouth, nose and eyebrow

#### **Magnifying Lamp**

E012 : Each

Has a 3 diopter lens surrounded by a 22W circular globe. Uses a starter to light up lamp. Tempered steel springs built into arm to ensure perfect balance. Comes with a removable white cover to protect the globe. 240V. 82cm x 47cm x 12cm Weight: 8.5kg. Stand sold separately.

#### **Magnifying Lamp Small**

E021B : Each For table tops.

#### XR8 8Pad Battery & Mains

SLIM01 · each

Not digital. Automatic program control. Battery or mains powered. Produces excellent results on either battery or with the plug-in mains power pack supplied. The safety controls start the automatic 30 minute treatment timer which cuts off the battery at the end of the treatment even if the controls are left switched on. Includes 8 Faradic Pads, 4 straps, 1 Transformer, 4 Faradic Leads and a portable carry case

FOR IMAGES SEE: www.logicabeauty.com

#### 16 Pad Professional EMS

G014 : each

The 16Pad fully computerised machine is the latest development in computer technology to contract and tone the muscles giving a firmer and younger looking shape to the body. Takes care of cellulite and flabby muscles. The nine selectable programs are designed to slim, tone and firm specific areas at the touch of a button. Select the program, start the treatment, set the levels and the machine does the rest automatically. Use our cosmetic range formulated for use with the Health Technology machines. Features include: 9 different programs auto mode and programmable mode. Computerised display, including treatment time, program, mode, stimulation. Time mode. Safety on feature. Master level control. 8 independent output controls with on and off functionality. Includes 8 sets of Faradic Pads, 7 Straps, 1 main cable, 8 Faradic Leads and 1 Carry Case

FOR IMAGES SEE: www.logicabeauty.com

#### **Cellulite Heat machine 5**

SLIM04 : each

The Cellulite 5 has 2 large leg pads, 2 arm pads and 1 large body pad. These heat pads produce the correct amount of heat to induce perspiration and blood flow thus stimulating lymphatic drainage and cellulite reduction. The heat wraps may be applied by themselves or over electro faradic pads. The latest non-toxic long lasting heat wraps are used with the Cellulite 5. Also wonderful healing aid for sore backs and strained muscles. Features include: Individual heat controls. Pulse indicator. Adjustable treatment timer control. Safety on feature. Low voltage 24 volts output. Includes 1 x Large body heat pad, 2 x Small leg heat pads, 2 x Small arm heat pads, 1 main cable and 1 Carry case.

FOR IMAGES SEE: www.logicabeauty.com

#### 10 Pad Standard EMS

SLIM02: each

Gives the same powerful output as the larger Professional machines with a single computer controlled program. The automatically controlled pulses are varied correctly to stimulate the mucsles exactly to what the body needs. This popular easy to use machine has safefty features and adjustable outputs to suit the user's exact requirements during treatment. In addition it also has a time adjustment control, a pulse indicator light, 5 independent output controls with on and off functionality, safety feature and an end of slimming session signal. Includes 5 sets of Faradic Pads, 7 Straps, 1 main cable, 5 Faradic Leads and 1 Carry

FOR IMAGES SEE: www.logicabeauty.com

#### 24 Pad Combo Electro - Cellulite 3

SLIM05 : each

The Electro-cellulite machine is designed to cater for professional slimming salons. This fully computerised machine is designed to give either faradic, heat or both treatments to the body. The nine program professional uses the very latest developments in computer technology to get rid of unwanted weight fast by warming the body and contracting the muscles simultaneously. The Electro-Pads are applied first and covered by the latest non-toxic Heat Wraps, a must for people with cellulite and flabby muscles. The nine selectable programs are designed to slim, tone and firm specific body areas at the touch of a button. Select the program, start the treatment, set the levels and the machine does the rest automatically. Features include 9 different programs auto mode and programmable mode. Computerised display, including treatment time, program, mode, stimulation. Time mode. Safety on feature. Master level control. 12 independent output controls with on and off functionality. Seperate heat pad indicator lights. End of slimming session signal. Includes: 12 sets of faradic pads, 10 straps, 1 main cable, 1 large body head pad, 2 leg heat pads, 12 faradic leads, 1 Carry case.

FOR IMAGES SEE: www.logicabeauty.com

#### 16 Pad Standard EMS

SLIM03 : eac

Gives the same powerful output as the larger Professional machines with a single computer controlled program. The automatically controlled pulses are varied correctly to stimulate the mucsles exactly to what the body needs. This popular easy to use machine has safefty features and adjustable outputs to suit the user's exact requirements during treatment. In addition it also has a time adjustment control, a pulse indicator light, 5 independent output controls with on and off functionality, safety feature and an end of slimming session signal. Includes 8 sets of Faradic Pads, 7 Straps, 1 main cable, 8 Faradic Leads and 1 Carry Case

FOR IMAGES SEE: www.logicabeauty.com

#### Microderm Face and Body 3 in 1

016D : each

1. Microcurrent, Microderm makes use of the latest, most gentle and painless method currently being used around the world by those individuals wishing to look years younger. The Microderm machine uses microcurrent, which is actually an abbreviation for microampere electrical neuromuscular stimulation, to lift and tone facial muscles using a non-invasive technique of electrode application. The microcurrent is sent through the skin via two hand held probes / electrodes

2. Galvanic feature.

3. Faradic Muscle toning, included in this machine is an 8 pad slimming and toning machine for pad placement on all major muscle groups of the body. Included is a set of bust pads. Together, the non-surgical facelift and iontophoresis treatments enhance each other and are extremely effective in achieving desired results. Features include: One dual probe handle set with attachments, all attachments for the face are gold plated for superior quality and conductivity. Master timer control. Master output control. Includes: 4 sets of faradic pads, 1 set of bust pads, 4 straps, 1 Galvanic and microlift kit, 1 main cable, 1 facial attachment, 4 leads din type, 1 Carry case.

FOR IMAGES SEE: www.logicabeauty.com

#### **Cellulite Heat Machine 3**

SLIM08 : each

The Cellulite 3 has 2 large leg pads and 1 large body pad. These heat pads produce the correct amount of heat to induce perspiration and blood flow thus stimulating lymphatic drainage and cellulite reduction. The heat wraps may be applied by themselves or over electro faradic pads. The latest non-toxic long lasting heat wraps are used with the Cellulite 3. Also wonderful healing aid for sore backs and strained muscles. Features include: Individual heat controls. Pulse indicator. Adjustable treatment timer control. Safety on feature. Low voltage 24 volts output. Includes 1 x Large body heat pad, 2 x Small leg heat pads, 1 main cable and 1 Carry case.

#### **Glass bead Sterilizer**

Q012 : each

The glass bead steriliser is a heat unit with a well that holds a cupful of tiny glass beads. The glass bead steriliser heats to 230 degrees celcius and above, hot enough to kill bacteria, fungi, viruses and viral spores. Only the parts of the instrument inserted into the glass beads will be sterilised. Instruments should be wiped free prior to insertion into the alass beads to ensure proper sterilisation and extend the life of the glass beads. With constant daily use the glass beads will last about one month.

#### **Lash Magic**

Blending Mascara. Blends your natural lashes into artificial ones making them undetectable. Lash Magic does not add length or thickness to your lashes so your lashes will remain clump-free. The Lash Magic formula is water soluble and can be easily removed without ruining a perfect pair of lashes.

Lash & Brow Excel

Stimulate new growth.

Repair weak, thinning lashes. Help prevent

lash loss. Giving lashes a

healthier, fuller appearance.

**Lash & Brow Excel** 

M68063 : 19ml

# how to clean Ardell faux lashes?

Use a non-oily eye-makeup remover. You may need to use tweezers to remove the adhesive. Store in the container it came in.

# application tip for strip lashes?

You may want to apply your eyeliner first along your lash line so that you have a visual line to follow. In addition, eyeliner can be added afterwards, so everything is more 'blended'. When applying LashGrip adhesive to strip lashes, be sure to wait 30 seconds for it to become tacky. If you don't it may be too slippery, making it difficult to get the right placement of lashes.

# removing lashes

To remove strip lashes, start at the outer corner of the eye, gently peel off the strip lash. Remove the adhesive from band and place lashes back on tray for re-use. DuraLashes individual lashes are easily removed by using the specially formulated LashFree Remover. Place a tissue over the lower lid and partially close your eye. Dip an eyeliner brush into LashFree Remover, then gently stroke along the lash line until adhesive softens. Remove lashes without pulling. Repeat if necessary.

# lash perming

#### make-up

#### Clinical skincare with colour. Exceptional coverage. Powerful antioxidant blend. Talc free. Non comedogenic.

Glo-minerals is committed to creating the smartest and safest formulations with only superior pharmaceutical-grade vitamins and minerals. We use only the finest ingredients and ultra-fine minerals in a triple-milled process ensuring that every application provides even, continuous coverage that lasts. Our base formulations contain no perfumes and are 100% talc-free. All are suitable for even the most sensitive skin types and conditions. Every glo-minerals product is non-comedogenic, allowing skin to breathe, which helps inhibit the potential for bacteria to become trapped in pores. Our powerful antioxidant blend of Vitamins A, C, E and Green

Tea Extract provides nutrients that are vital for maintaining the health of your skin while protecting it from further damage. Our foundations provide complete broadspectrum UVA and UVB sun protection using the effective properties of natural minerals. Glo-minerals offers an exceptional spectrum of mineral pigments from the hottest hues to timeless colour classics. Anti-inflammatory ingredients, including Green Tea Extract, Zinc and Vitamin C, help improve the appearance and condition of acne and rosacea-prone skin.

# base basics {MAKE-UP}

### pressed, loose & liquid

#### PRESSED BASE

#### make-up

#### LOOSE BASE

This loose mineral foundation formulation is beautifully pigmented and luminescent. It offers medium to full coverage with a dewy finish. It is well-suited for sensitized skin. Loose Base is talc-free, non-comedogenic and fortified with our exclusive antioxidant blend. Skin type: Normal to dry skin.

#### PROTECTIVE LIQUID FOUNDATION MATTE II

Soothing, oil-absorbing liquid mineral makeup for buildable coverage with a matte finish. Protective Liquid Foundation Matte II is talc-free and non-comedogenic. Skin Type: Oily Skin

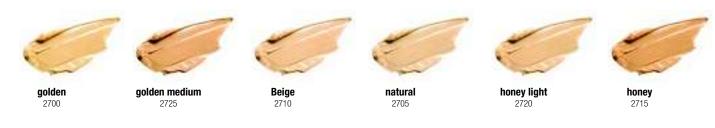

#### PROTECTIVE LIQUID FOUNDATION SATIN II

Achieve smooth, buildable coverage with a satin finish with our leading liquid mineral foundation. Protective Liquid Foundation Satin II is talc-free, non-comedogenic and fortified with our exclusive antioxidant blend. Skin Type: All but oily skin.

#### SHEER TINT BASE

Formulated with our signature blend of antioxidants, Sheer Tint Base delicately camouflages flaws, nourishes and protects skin with sheer coverage for a healthy glow. Skin type: All skin types.

#### LUXE LIQUID FOUNDATION SPF 15

Harness the light-refracting power of diamonds to bend light for a soft, ageless complexion with glominerals Luxe Liquid Foundation. Formulated with light-diffusing diamond powder, broad spectrum UV protection and specialized moisturising agents to deliver a flawless, youthful complexion.

# radiant finish {MAKE-UP}

# prime, conceal & finish

#### **PRIMERS**

Creates an even, ideal canvas for foundation by filling in fine lines and large pores so that foundation goes on looking porcelain smooth.

#### Under eye primer

An anti-aging under eye primer that minimizes the appearance of imperfections by filling in fine lines while using light-reflective pigments to soften the appearance of wrinkles and dark circles. Silicone polymers and organic form fillers fill in fine lines. Grant-X, "The Super Peptide:, has been clinically shown to improve the appearance of wrinkles via nerve synapse interaction. Can also be used around lips to soften lines.

#### **FINISHERS**

#### Perfecting powder

1101

A clay based, pressed formulation that offers a truly translucent natural finish to absorb excess oil and set makeup for all day wear

#### Matte finishing powder

1100

This pressed powder is made from rice starch and offers a matte finish with a subtle tint to balance colour.

## Loose matte finishing powder

2014

A true, translucent, loose matte powder that sets looks to last all day while soaking up oil, keeping your skin shine-free.

#### Luxe setting powder

1400

A luxurious loose powder to set Luxe Liquid Foundation and blur fine lines and imperfections for a luminous soft focus effect on the skin. Provides weightless coverage with a sheer, silky smooth finish to leave skin looking flawless.

Moist and revive hydration mists include our exclusive blend of antioxidants and anti-aging ingredients to hydrate instantly. Hyaluronic acid and heavy water quickly sink into the skin making it plump and refreshed. Revive hydration mist has the added benefits of peppermint, lavender and rosemary oils, while moist hydration mist has the added benefits of geranium oil.

#### Redness relief powder

2200

Visibly reduce skin's surface redness with this loose powder that contains soothing ingredients like Honey Suckle, Zinc Oxide and Caffeine.

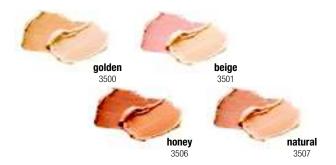

#### Moist hydration mist

**Revive hydration mist** 

8500 8505

# CONCEALERS CONCEALER UNDER EYE

Includes treatment ingredients to help brighten and improve dark under eye circles.

#### CAMOUFLAGE OIL FREE

Camouflage blemishes, scarring, hyperpigmentation and other visible skin conditions.

#### **CONTOUR KIT**

This contouring palette features four powder shades to enhance features and create dimension. Whether softly subtle or more dramatically chiseled, these blendable and buildable formulas allow you to create a customised contour statement.

fair - light 4620

medium - dark 4621

# golden 3502 natural 3503 beige golden honey 3504 3508

#### Corrective camouflage kit

350

A sheer, easy to apply formula that expertly neutralizes and conceals skin discolouration. 4 colours included in kit. Use yellow to conceal mild redness, pink skin, under-eye circles, dark spots and black, blue and purple bruises. Use mint to conceal redness from blemishes, scars, port wine stains and rosacea. Use lavender to conceal yellow, grey and green bruises, sallow complexions and under-eye circles on deeper skin tones. Use neutral to conceal general skin imperfections, minor acne and under eye circles. Blend colours out at the edges with neutral for seamless coverage.

#### LUXE LIQUID BRIGHT CONCEALER

A lightweight, corrective concealer pen that provides impeccable coverage while bringing light and brightness to the complexion. Instantly reduces signs of fatigue and shadows by canceling out unwanted colour and masking imperfections. Softens the look of fine lines and improves skin's radiance.

# high beam 3604 brighten 3602 sunburst 3603

#### BRIGHTENER HIGHLIGHT CONCEALER

Use this must-have under the eyes, the side of your nose or anywhere you want to brighten or erase shadows.

#### SUN CARE

#### PROTECTING POWDER

This dust-on loose powder with an easy-to-carry brush provides sheer to medium coverage and environmental protection with a dewy finish.

Oil free SPF 40+ sunscreen 2300

Provides broad spectrum protection from the sun's damaging rays while nourishing hydrators and antioxidants help fortify the skin.

# talc and glominerals

The lack of Talc in glominerals means that one can achieve fuller coverage using less product. The make up feels lighter on the skin and will last throughout the day. The product will last longer than comparable Talc-containing products. Products that contain Talc can have adverse effects. A Talc particle is heavier than a mineral pigment and will settle into both pores and wrinkles. Therefore, products containing Talc are more likely to accentuate wrinkles and clog pores. Talc may also exacerbate skin conditions like acne and rosacea. Skin irritation may occur with the use of products containing Talc, especially on sensitive skin types.

translucent

2201

# using glominerals after a facial, peel or plastic surgery procedure

Glominerals is embraced by dermatologists, plastic surgeons and skin care professionals because it is ideal for the use after chemical or laser procedures to help protect the skin. Unlike traditional makeup products, glominerals is non occlusive on the skin, which means it allows the skin to breathe. Our products are uniquely formulated, utilising only the finest pharmaceutical-grade ingredients, triple-milled high-pigment minerals and an antioxidant blend of Vitamins A, C, E and green tea extract. glominerals provides broad spectrum UVA and UVB protection and helps defend against free radical damage.

# all about eyes {MAKE-UP} contour, highlight & define

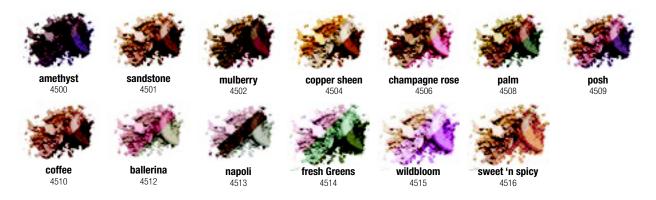

#### EYE SHADOW

Rich hues and timeless colour favourites deliver crease-free coverage to highlight and enhance eyes. These shades are buildable. Keep coverage sheer or apply more layers to increase intensity. Can be used wet with Moist hydration mist to increase pigment or for use as an eyeliner.

#### EYE SHADOW TRIO

Colour perfect eye shadow collections complete with a base, contour and highlight shade.

#### make-up

#### SMOKY EYE KIT

A kit complete with four essential colours and application guide takes the mystery out of creating a smoky eye.

4605

#### Smoky eye kit metallic

Metallic Smoky eye kit presents a fresh, earthy way to wear the classic smoky eye look.

#### CREAM STAY SHADOW STICK

#### GRAPHIC LINER

Precision, definition and staying power create the perfect liner. Use the tip of the pen for a thin liner or the side of the pen for a thick line. Use the tip of the pen to dot liner between lashes to give your lashes a more volumised look.

black

black/brown 6201

#### CREAM EYELINER

Luxurious cream pigments enable easy precision lining at the lash line.

# helpful tip:

Apply cream eyeliner using the Eyeliner/Brow Brush, Smudge Brush or Dual Brow Brush by pressing into the lashline. Pressing a coloured eye shadow on top will allow for a more intense line with longer staying power.

#### PRECISION BROW PENCIL

Natural-looking brow enhancement that fills, sculpts and shapes brows. Each pencil includes a versatile brow sculpting brush for 2-in-1 shaping and blending.

#### **BROW POWDER DUO**

Achieve the perfect brow by creating a custom blend of two shades to expertly fill in sparse areas.

#### **BROW GEL**

# helpful tip:

Apply Brow Gel after Brow Powder Duo or Precision Brow Pencil for more control over unruly brows.

#### **BROW COLLECTION**

This all inclusive collection offers everything you need for brow styling and maintenance. Kit includes: 4 Brow stencils, Brow powder duo, Brow wax, Highlighter, Spoolie brush, Tweezers and Angled brow brush.

#### **MASCARAS**

#### Lash boosting mascara

6032

Containing lash conditioners and film forming polymers, this mascara is formulated for optimum performance. Available in black.

#### Volumizing mascara

6050 - 6051

Get full, flawless lashes. Effortlessly plump, thicken and define with this conditioning, clump-free formula. Available in black and brown.

#### Lash lengthening mascara

6000 - 6001

Lash lengthening mascara's long wear formula and flexible brush separate and lengthen lashes like never before. Available in black and black/brown.

#### Water resistant mascara

6030

This long-lasting water resistant formulation conditions and helps strengthen the lashes with Bamboo and D-Panthenol. Available in black.

#### Lash thickener & conditioner

This colourless formula delivers nutrients to help keep lashes healthy while creating thickness and volume prior to mascara application.

# applying mascara:

Start by applying mascara to the top of your lashes, pulling them down towards your lower lash line. Then from the bottom of your upper lashes, press the wand into the roots and zig-zag out, while pulling your lashes up, this will provide a natural curl to the lash and expert coverage. Wait to apply your second coat until the first is tacky (not too dry and not too wet). After applying, add an extra coat on the outer lashes to open up the eyes. Curl lashes before applying mascara, applying mascara after will help hold the curl.

#### **EXTRAS**

#### Lid primer

1300

Prevents oil from interfering with eye makeup application, and neutralises lid tones allowing for more vibrant colour and extended

#### **Eye Revitalise**

3650

Active ingredients cool, hydrate and condition the skin while temporarily "lifting" the delicate eye area.

#### Eye make up remover

An ultra-gentle, oil free eye makeup remover specially formulated to quickly remove all traces of eye makeup.

# cheeks and glo {MAKE-UP}

For every beautiful complexion, there is a perfect blush, a seamless bronzer, or a shimmer powder to highlight and accentuate it. These natural mineral formulas are delivered through a colour palette representative of the richest plums, nudes, roses and earth tones.

#### CREAM BLUSH

A creamy formulation that offers a long-lasting flush of colour.

guava

#### **BLUSH DUO**

Compatible colours to contour and highlight cheeks. Blend together or apply individually for a radiant glo.

petunia 3300

terra cotta 3302

**BLUSH** 

High-pigment colour for expert shading and highlighting.

#### SHIMMER BRICK

Four beautiful colours that can be swirled together for a captivating glo. Gleam complements all complexions while luster enhances golden and olive tones especially well.

#### BRONZE

Seamless colour enhancement that adds a warm, natural sun-kissed glo.

#### POWDER CHEEK STAIN

This vibrant, long-lasting colour keeps cheeks glowing with a rosy tone all day.

#### DUST 24K

A clever colour and shine enhancer that delivers a range of effects from subtle sparkle to gilded skin tone. Use Dust 24K on the face, body, in the hair, or wherever you want to shimmer.

#### **EXTRAS**

Highlighter

891

This pink luminescent cream adds a subtle radiance to instantly brighten the complexion.

#### Sheer tint illuminator

2726

A sheer, light reflecting formula that visually smooths the appearance of fine lines and illuminates skin tone.

#### **Body Bronzer**

890

Create an all over sun-kissed glo with Body Bronzer. This luxurious lotion can be used on all skin types to create a subtle, all over tan while giving just a hint of beautiful shimmer.

#### **Body Glisten**

892

Body glisten adds flattering shimmer and sparkle, giving skin a healthy glo. Apply to exposed skin on any part of your body, day or night, to brighten your complexion.

# lips {MAKE-UP}

Finish your look with a swipe of lip nourishing long-wear colour.

# 5·minerals

#### **LIPSTICK**

A moisturising formula that provides vibrant colour and remarkable wearability.

Antioxidants and conditioning Sunflower and Safflower Oils protect and nourish lips while mineral pigments lend colour and shine.

lily

5017

flamingo

5064

5224

5025

#### SHEER LIPSTICK

This soft, creamy formulation glides on the lips and delivers a perfect, subtle tint.

#### LIQUID LIPS

A high shine, luxurious formulation for an ultra moist look that lasts. Rich nutrients condition and protect the lips.

#### LIP TINT

Quenches lips with a moisturising hint of colour. Jojoba Seed Oil provides a glossy shine sans stickiness.

#### PRECISE MICRO LIPLINER

Formulated to support long-term hydration and provide a soothing effect, this long-lasting, line-filling, creamy lipliner offers a smooth application and rich colour.

#### LIP PLUMPER

Contains marine collagen-filling spheres which work to plump lips, providing volume to the skin's structure. Pepper-derived Capsicum extract stimulates lips, resulting in a tingling sensation and rosy tint. Safflower oil, which is high in Linoleic acid, helps soften and condition lips.

#### ROYAL LIP CRAYON

A crayon-inspired, chunky pencil that shades the lips with a moisture-rich, long-lasting sheer gloss with the precision of a pencil.

#### make-up

#### LIP CARE

Lip colour is fun, lip care is essential. These lip extras protect, hydrate and nourish your pout for your smoothest, healthiest lips yet.

#### PROTECTING LIP TREATMENT SPF 15

supporting lip hydration.

This moisturising, sheer lip treatment provides broad spectrum UV protection while adding dimension and shine.

#### **Exfoliating lip wand**

5106 Nourishing wax microcrystals gently exfoliate, melt on contact, lock in moisture and prevent dry skin, leaving lips soft and smooth.

Protects lips with

broad spectrum SPF

15 while nurturing

botanicals keep lips soft and supple.

**Cherry Balm Mint Balm** 5115

#### CREAM GLAZE CRAYON

Shine perfected. Electric, high shine colour combines a luxurious glossy look with intense saturation and impressive staying power. Enriched with antioxidant vitamins C and E as well as conditioning Mango oil and Shea butter for nourishing protection., Our crayon-inspired chunky pencil with built-in sharpener delivers precision and convenience in one.

#### PROTECTING LIP TREATMENT SPF 15

This moisturising, sheer lip treatment provides broad spectrum UV protection while adding dimension and shine.

#### PRECISION LIP PENCIL

A long-wearing, water resistant liner to define lips and keep colour in place. Each pencil includes a lip brush for easy blending.

#### SUEDE MATTE CRAYON

Matte redefined. Saturated, long-wear colour provides intense payoff with a velvety-smooth finish. Enriched with antioxidant Vitamins C and E as well as conditioning Mango oil and Shea butter for nourishing protection. Our crayon-inspired chunky pencil with built-in sharpener delivers precision and convenience in one.

#### SUEDE MATTE STICK

Matte redefined. Saturated, long-wear colour provides intense payoff with a velvety-smooth finish. Enriched with antioxidant Vitamins C and E as well as conditioning Mango oil and Shea butter for nourishing protection. Our new slender stick offers a creamy application that lasts for hours.

# tools {MAKE-UP}

**eye shadow magazine** 8609 eye shadows and liners

## brush care:

Clean brushes after every use with a gentle alcohol based brush cleaner. Wash brushes frequently with a small amount of a non fragrance, gentle or conditioning formula shampoo in a small bowl. Add warm water. Place brush into small bowl, making sure not to fully submerge your brush hair, and swirl around until all make up is removed. Squeeze out any excess water from brush. Do not pull too hard as to damage the brush bristles. Lay on towel, at incline to dry. Allow 24 hours to dry. Please remember, water trapped in the barrel can rot the glue. This will lead to an offensive odour and brush hair loss.

#### **DISPLAYS**

There are 5 oval display units available. They are individual palettes. There is no minimum opening order to become a Glominerals stockist if you are a qualified beauty therapist or make-up artist. We do however offer these display units free with the purchase of products to fill up the display. The purchased products needs to be of a certain value to qualify for the free display unit.

9525

# clinical application:

# rosacea (camouflage technique)

The patient has several uneven tones of red and pink in her skin due to skin condition.

**Goal:** Reduce visible redness and even out skin tone.

Begin by using camouflage oil free in beige to tone down areas with the most redness. To conceal under eye circles, use concealer under eye in beige. Neutralise and camouflage the remaining redness with the appropriate shade of pressed base. An even application with the ultra brush is the best option.

# acne (camouflage technique)

This patient has acne flare-ups from time to time.

**Goal:** Camouflage acne, especially on the cheek area where the flare-up is most visible, to create a flawless skin tone.

Begin by using camouflage oil free in natural or beige to even out red tones. Neutralise blue pigment under the eyes with a light application of concealer under eye in beige. A light application of pressed base in an appropriate shade with the powder brush sufficiently covers any remaining traces of acne and evens out the skin tone.

# melasma/hyperpigmentation (camouflage technique)

This patient has skin discolouration.

Goal: Camouflage darker areas of the skin to create an even skin tone

The patient's condition requires evening out the complexion with a combination of concealer under eye and camouflage oil free applications. Stipple on camouflage in golden to hide the hyper pigmented areas of skin. Apply concealer under eye in golden to conceal under eye circles. Finish with application of appropriate base to even out overall skin tone.

## how to use callus liquid

Use on dry feet. Wear protective gloves when using

Dampen a piece of thin cotton wool with SKNrenew callus liquid or Balsan Callus liquid and place over the callused area.

Wrap the foot with plastic wrap to keep the cotton wool in place. Leave for 10-20 minutes depending on degree of the callus.

Remove plastic wrap and cotton wool and scrap away the softened calluses with the SKNLOGIC blunt callus plane (See Tools Category). Wash and dry feet, follow by massaging SKNrenew foot balm onto the feet or Balsan Herb Balm.

Do not use more than once every 2 weeks.

cuticle application: Apply cotton wool to cuticles and dampen with SKNrenew callus liquid. Leave for 1 – 3 minutes and gently scrape away the softened dead cuticle build up with metal cuticle pusher. Rinse well.

## warning

**Sole Mate Callus** 

Remover

82565 · 118 ml

For professional use only. For external use only. Wash off after use. Only use this product on callused skin, do not use on open or irritated skin. Not for use on skin's suffering from psoriasis or eczema on their feet or any other skin thinning disease. Do not decant Callus Liquid into another container.

## gel polish {MANICURE & PEDICURE}

## seche nail products {MANICURE & PEDICURE}

**Seche Vite** 

\$83100 · 15 ml

Fast Dry Topcoat. Acknowledged as one of the world's finest top coat Its patented formula allows it to penetrate through the nail lacquer to the base coat forming a single solid coating over the nail plate for a much more durable finish which is guaranteed not to discolour

## Seche Ultra V Top Coat

S83142:14 ml

The ultimate in UV curable topcoats. Seche Ultra-VTM leaves a durable, long wearing, high gloss shine over polish. Dries layers of polish in just 3 minutes under any UV lamp.

S83040: 14ml & 118 ml

## **Seche Clear Base**

S83113:15 ml The first truly non-yellowing base coat for nail polish. After ten years of development Seche Clear was created to provide a clear base coat for nail polish that will not yellow and will adhere to the natural nail. Apply to a properly prepared nail plate as an alternative to Seche Base.

### Seche Base

S83037 : 15 ml Ridge filling Base coat contains finely ground guartz crystals that work very effectively to not only fill ridges in the nail plate, but also help disguise nail imperfections. Seche Base has an incomparable bonding ability and is specially formulated to give Seche Vite the best anchor to hold onto. Apply to properly prepared nail plate.

## **Seche Restore**

S83045 : 15 ml The only thinners which may be used to thin Seche Vite. It may also be used to restore any other brand of nail varnish.

### **Seche Plus**

S83001:15 ml Fortified Nail Strengthener. An innovative treatment enriched with vitamins and minerals that strengthens, fortifies and hardens weak, thin, split, brittle and slow growing nails. Dries to a clear, hard and long lasting finish. The Plus Program: Apply daily to properly prepared nail plate for seven days. After the seventh day remove. Start daily treatment over.

## **SPA**RITUAL

NAIL . BODY . LIFESTYLE

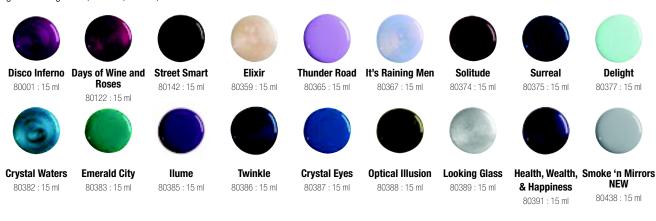

In our fast-paced and increasingly connected world it is easy to lose track of what's really important. SpaRitual believes that slowing down is the path to enlightenment and is committed to creating earth-sustaining products that relax, nourish and reconnect mind, body and spirit. Unique to our body care and nail lacquer categories are four States of Slow Beauty. Each contains a signature scent and colour palette that creates a multisensory Slow Beauty experience. Step off the fast track and join us. Be a SpaRitualist. Slow Beauty for a fast world.

By fusing the disciplines of colour therapy and numerology, SpaRitual has designed a lush, shimmering palette of nail lacquers. Each Sparitual shade is associated with a unique message or meaning and numerological value. Each SpaRitual Nail Lacquer comes with the sleek, patented Plum Cap, allowing easy opening of the bottle and a non-slip grip while applying the product. Our bottle is crafted from reusable glass with up to 50% recycled materials and is recyclable with proper care. SpaRitual Nail Lacquers are vegan because we use Mica in our shimmers instead of Guanine (fish scales) Our nail lacquers are also free of DBP, Formaldehyde, Formaldehyde Resin & Toluene.

### Centre Yourself Body Wrap

83564:992 g

70% Organic body wrap. Centre Yourself Organic Body Wrap works to purify and repair all skin types. The dry phase delivers a unique blend of organic Rice Peptides, dried Plum and Acai Powders. Eco-friendly White Clay naturally harvested deep within the Amazonian rain forest rich in minerals and nutrients, deeply cleanses and eliminates toxins. Also features buckwheat, to increase moisture retention and add a final layer of protection from the elements.

Application: Mix 85gr of powder with 60 ml of water and 28ml of any choice of Sparitual Body oil. Mix all three ingredients until you reach a smooth light batter. Place the mixture in a hot cabi or warm the mixture in-between your hands prior to application on the client. Apply directly on the body. Swaddle or wrap your client in plastic or a sheet. Let your client absorb the benefits of the wrap mixture for 10 - 15 minutes. Remove with warm water and follow with any of the Sparitual body lotions.

### GI OSS

Lip Glosses from SpaRitual are formulated with a unique blend of certified organic ingredients, including Cocoa Seed Butter, Sesame Seed Oil, Coconut Oil, and Shea Butter to condition and moisturize lips. These gluten-free Lip Glosses are flavoured with natural fruit oils and are safe for those sensitive to gluten. Furthermore, with the inclusion of vitamins and antioxidants, the glosses provide protection from free radicals. The Lip Glosses are free of sulphates, fragrances, GMOs, gluten, petrochemicals, phthalates, triclosan, and parabens.

gold color system {MANICURE & PEDICURE}

Experience longer wear, easy-on/easy-off, smudge-repairing technology that dries in less than eight minutes to a high shine with SpaRitual's GOLD. SpaRitual GOLD delivers technology that fuses the Flexible Color with our Flexible Topcoat to create a durable, scratch resistant, high shine finish that doubles the wear of your manicure. All 24 GOLD Flexible Colors and Flexible Topcoat feature the patented GOLD Cap<sup>TM</sup> for easy opening and precise application. To add, GOLD's Mindful Brush is designed with 600 bristles that fan out on the nail to provide maximum control and precise application. This new brush design fits the cuticle to allow for a 1-stroke application and create a smooth, even finish. This GOLD Flexible Color<sup>TM</sup> system applies 75% faster and removes 85% faster than gels. GOLD dries 60% faster than a traditional manicure, and contains a smudge repairing technology that is self-leveling and correcting.

## mask powders

## mask powders

**Calamine Powder** 

1035 : 500 g Soothes inflamed skin and reduces vascularity, suitable for sensitive skin.

Kaolin Powder

1035C : 500 g

Deep cleanses, removes impurities, stimulates circulation, helps desquamation, improves skin function and tightens the pores. Suitable for oily, congested skin.

**Fullers Earth** 

1035E : 500 g Deep cleansing, assists with circulation, excellent desquamation and deep cleansing, ideal for oily,

congested skin, not suitable for sensitive skin.

**Magnesium Carbonate** Powder

1066 : 500 g

Mildly astringent, refines skin, stimulates, tighten and firm the skin, suitable for young skin, or mixed with calamine lotion for drier, more sensitive skins.

Sulphur Powder

1067 : 500 g

Drying effect, dissolves surface dead skin cells, generally added to Fuller's earth for use on extremely

oily skin.

Zinc Oxide Powder

1035A : each

Mildly astringent; healing, soothing and antiseptic. Can be used on irritated or inflamed skin.

Mask powders can be mixed with Rosewater, Orange Flower Water or Witch-hazel (Look under Liquids category); Glycerine (Look under Consumables category); or Sweet Almond oil (Look under Aromatherapy category).

## seasons of reflection {MUSIC}

Spring I: SORCD-0503: 60 min

Features a delicate balance of high and low program energy levels. This CD suits most types of therapy sessions and is ideal for general relaxation. Energy Level: Medium

Winter I: SORCD-0702: 60 min

With its brighter sounds and slightly faster tempo it has a revitalising and uplifting feel to it - ideal for treatments that are more invigorating. Energy Level: Medium High

Autumn II: SORCD-0801: 60 min

Covers medium to low program energy levels and will enhance deep relaxing types of treatments. Energy Level: Low-Medium

Summer I: SORCD-0601: 60 min

Covers medium program energy levels. It features slightly more energetic tracks and is suited to generally more relaxing types of treatments. Energy Level - Medium High

Spring II: SORCD-0703: 60 min

Features tracks with a delicate blend of relaxing musical textures and brighter, more energetic tracks. This CD suits most types of therapy sessions and is ideal for general relaxation. Energy Level: Medium

Winter II: SORCD-0802: 60 min

Features tracks with a gentle sparkle to take the listener into and out of deep relaxation, ideal for treatments with a lighter, more rejuvenating feel. Energy Level: Medium

Autumn I: SORCD-0701: 60 min

Covers medium program energy levels. It features slightly more energetic tracks and is suited to generally more relaxing types of treatments. Energy Level - Medium High

Summer II: SORCD-0704: 60 min

Well suited to treatments that require a slightly higher energy level and enhances revitalising types of therapy. Energy Level: Medium - High

## to listen to these cd's go to:

http://www.ambsol.net/AMS/index.php? option=com content&view=article&id=46&ltemid=75

## elements {MUSIC}

Elements 1: SORCD-1004: 60 min

Has a medium energy profile with some revitalising tracks at the start and finish of the CD. It is suited to treatments that require some sparkle, but with deep relaxation in the middle. Energy Level: Medium-Low

Elements 2: SORCD-1005: 60 min

Has a low energy profile throughout and is ideal for deep relaxation. The energy profile features slightly higher levels at the beginning and end of the CD to ease the listener into and out of deep relaxation. Energy Level: Low

Elements 3 : SORCD-1006 : 60 min

Has a low energy profile throughout and is ideal for deep relaxation. Lots of space, musical simplicity and gentle sounds that melt away, create a sensitive backdrop for deep relaxation massages, sleep therapy, yoga and personal meditation

The tracks are mostly built around soothing piano sounds, with selective spots featuring flutes and sparkling textures to create interest. Energy Level: Low

Elements 4: SORCD-1007: 60 min

Builds on the lower energy profiles of the ELEMENTS series and is ideal for deep relaxation. Like Elements Volume 3 this CD features lots of space, musical simplicity and gentle sounds that melt away, creating a sensitive backdrop for deep relaxation massages, sleep therapy, yoga and personal meditation. The tracks are mostly built around soothing plano, harp and guitar sounds, with selective spots featuring flutes and vocal pad textures. Energy Level: Low

## Permanent make-up hygiene

Use an alcohol-free antiseptic to clean the skin prior and after treatment such as Biguamine (see Quadex under the Disinfectants category). It is essential that all needles are disposed of responsibly, by using a needle dispenser (see Electrolysis category).

Always use disposable gloves for your safety and that of your client. (For gloves see consumable category).

## skincare

SKNLOGIC Cosmeceutical skin care aims to provide a skin care solution that works with the skin's biological processes to achieve visible results. SKNLOGIC has a synergistic approach to science and nature, offering powerful fruit-based formulas with optimal concentrations of active ingredients to actively improve skin health and appearance from underneath the skin. International market trends and technological innovations initiate and drive product development. We are continuously upgrading formulations to ensure that we utilise the most stable and effective combination and concentration of active ingredients in our products. We

## SKNLOGIC skincare

use the maximum concentration of key active ingredients and use the highest grade of quality ingredients from around the world. SKNLOGIC products does not contain any parabens, mineral oil, formaldehyde, glycols, artificial colourants or sulphates.

Suitable for: All skin types, especially problematic and sensitive skin.

Exfoliate enzymatic SKN024 : 200 ml

## a word from karin theunissen, founder of SKNLOGIC

"I believe that effective and functional skin care should be accessible to everyone, I believe in the future of the industry and as we all feel the economic burden over the last few years, I realised that it was necessary to give the industry a product that is affordable to their clients but is still result orientated. I have been involved in the beauty industry for over 25 years, and with that comes a level of expertise that stirred me to rethink skin care and incorporate the best of both science and nature to create a skin care range that provides the skin with the vital minerals and nutrients it needs to regenerate and function at its optimum. It was out of this knowledge SKNLOGIC was born."

## nourish {SKINCARE}

Masque hydrate SKN013:75 ml that provides vital nourishment for dry and mature skin. Key Ingredients: Fig

Creamy, moisture-

replenishing masque

Key Ingredients: Fig extract, Kaolin, Avocado oil, Cucumber extract, Wheat germ oil, Citric Acid

Suitable for: Dry, Dehydrated &Mature

Masque restore SKN012:75 ml Powerful masque of concentrated antioxidant vitamins and nutrients to help the skin recover from damage while enhancing barrier properties and restoring the skin's natural health.

# Why is SKNLOGIC more affordable than many other cosmeceutical product ranges?

Price alone has nothing to do with the strength and effectiveness of skin care products. We believe that good skin care should be accessible to everyone, and that what is in the jar is more important than what that jar looks like. For that reason we choose packaging that has the lowest cost possible to ensure that most of the cost of the product is made up out of the active ingredients in the product. Sknlogic is also manufactured locally, which means saving on transport cost and there are no customs duties added onto the final price. Our passion for the skin and the industry means that we are not in it only to make a profit, but to be involved in the process, learn new technologies and be a part of the community. We believe in the future of the industry and as we all feel the economic burden over the last few years, we knew that it was necessary to give the industry a product that is affordable to their clients but is still result orientated. Being driven by passion rather than profit means that accessibility of the product is of the utmost importance to us.

Please ask your sales representative for more promotional SKNLOGIC material such as posters, brochures and bags. For SKNLOGIC Appointment book see Tools category.

The SalonCare<sup>TM</sup> Skin Improvement range helps improve the appearance of your skin! Effectiveness and safety are due to the use of vegetable derived ingredients and no unnecessary aggressive chemicals.

SalonCare TM is a professional product available through professional distributors, medical practitioners and trained therapists. The range contains a comprehensive listing of both facial and body treatment products. For sensitive skin types, SalonCare TM Sensitive products are fragrance and colourant free.

### **Retail Range**

Consists of a range of cleansers, toners, moisturisers and treatment products for every skin type and concern. Also included in the retail range is a range specially designed for sensitive skin. Salon Care also offers a range of products specially for men's skin as well as a range of body products.

### **Professional Range**

A range of skin care products and body treatments for the professional beauty therapist.

## LongLash Gel

F003L:7 ml

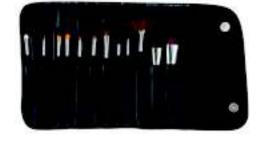

Refectocil Longlash Gel is a nurturing conditioner resulting in shiny, long and healthy eyelashes and eyebrows. The new composition is gel-based and contains high quality ingredients such as Vitamin E, D-Panthenol and Glycerin. These provide long lasting moisture and intensively nourish and protect eyelashes and eyebrows tinted with Refectocil. The use of Refectocil Longlash Gel prevents dry and brittle eyelashes and eyebrows and helps to preserve their full natural length. Healthy eyelashes and eyebrows are crucial for an ideal tinting result. Refectocil tint is more intensive and long lasting on healthy hairs. Approximately 250 applications.

# tweezers {TOOLS}

## helpful tip:

Sterilise your implements with Quadex Disinfectants:

Step 1

Dilute 1 part Instrument Cleaner with 20 parts Distilled water in a plastic container (stays active for 5 days in container with lid). Place implements in liquid and leave for 15 minutes. Make sure implements to do not connect in the plastic container. For plastic container with lid see Tools category.

Step 2

Pour Distilled water into a plastic container. Rinse implements in Distilled water. Always used Distilled water and not tap water to clean implements.

Step 3

Place instruments in a plastic container that has a lid with Cold Sterilant and leave for 30 minutes. Use gloves or a sterilized tong to remove instruments from solution. Replace every 30 days after light to moderate use. To ensure you keep it for the correct amount of days, mark the lid with the start of use date.

**Buffing Block** 0001D : Each Purple 60/100

## helpful tip:

It is very important to clean and disinfect files, buffers and blocks in a salon to ensure that there is no cross contamination of fungi and bacteria. After each use buffers, files and blocks must be sanitised and then disinfected:

#### Step 1

Spray PolyMicro (page 29) onto each file, buffer and block used.

#### Step 2

Under running water, gently scrub with brush all surfaces to remove all visible debris and residue while thoroughly rinsing.

## Step 3

After cleaning spray Sterifog onto each tool and allow to dry by placing them on top of a clean towel and covering them with another clean towel.

# clean + easy wax system {WAX}

In the world of professional hair removal, clean+easy is synonymous with innovation. Our patented roll-on systems are used in salons and spas worldwide and are proven to be the most efficient and economical hair removal system available. Rollon applicators are the most reliable method of applying wax - no drips, mistakes, or burns. By simply rolling on the wax, application is always where you want it. This method of waxing is also more hygienic. Clean+easy offers a complete line of professional waxing products, including roll-on systems, pot wax systems and treatments. Clean+easy also has a complete line of professional paraffin wax blends enriched with essential oils and natural ingredients.

## **WAX KITS**

W982 : Pack of 3 For facial waxing

## Super fine

W983 : Pack of 3 For facial waxing

## **BRAZILIAN WAX**

## Prep-oil

W854 : 147 ml

Pre - Epilation oil for Brazilian wax is an essential companion to the Brazilian hard wax. Lightly coats the skin allowing the wax to adhere only to the hair and not to the skin, making the removal of wax easier and more effective.

## Brazilian hard wax tin

W851:396 g

The Brazilian hard wax formula was specifically designed for the Brazilian bikini technique. By adhering to the hair, not the skin, the hard wax gently removes even the coarsest of hair from the most sensitive areas. This no strip formula leaves the skin smooth, hair-free and all with no wax residue!

#### Brazilian Wax Kit

W850 : Kit

Kit includes: Deluxe pot warmer, 1x14oz. Brazilian pot wax, 1x 5oz. Pre-Epilation oil, Brazilian Wax Instructional video

## TREATMENT PRODUCTS & CLEANSERS

#### Remove

W960: 473 ml

After Wax Cleanser. This light oil removes any wax residue remaining after epilation. Enriched with wheat germ oil, it also moisturises as it cleanse. Can also be used to clean the roller heads and wax heater.

## Restore

W951A: 473 ml

Dermal therapy lotion. Moisturises and conditions the skin. A remarkable formula with Squalene, Shea Butter, and other botanicals such as Aloe Vera and Allantoin to soothe, heal and protect the skin. Perfect for after hair removal or as a massage lotion before and after paraffin dips.

#### Soothe

W952: 473 ml Soothing Aloe Vera Gel. An Aloe Vera Gel with Allantoin that instantly cools, soothes and helps reduce irritated or reddened skin associated with waxing.

#### Lavender Moisture **Absorbing Powder**

W953:99 q

A super-fine powder mixed with the soothing properties of lavender. Used to absorb any excess oil or moisture on the skin, allowing wax to grip the hairs, preventing any breakage.

#### **Numbing Antiseptic** Lotion

W954:118 ml

Contains Chamomile extract that is clinically proven to be an anti-inflammatory that helps soothe, clean and refresh the skin. Also formulated with Benzocaine to desensitize and numb the skin prior to waxing sensitive areas.

#### Cleanse

W956: 473 ml A pre-wax cleanser that removes any traces of oil, make-up and perspiration from the skin

#### **Azulene Skin Calming Oil**

A soothing skin oil formulated with Azulene to calm and soothe irritated skin while removing any wax residue.

# phd wax system {WAX}

This is not a spatula or roll on method. The use of the unique PhD disposable applicators for each client minimizes the risk of cross contamination during a wax treatment, especially in areas prone to bleeding. This is achieved as the applicator is never inserted into a wax container. The unique applicator dispenses wax evenly, cleanly and quickly. PhD applicators have a gate mechanism to prevent wax from re-entering the tube and the tube is held at 45° angle in the booster chamber so there is no chance of any wax flow back. As well as being hygienic the PhD system also offers a professional, quick and easy wax, with a less painful hair removal for the client. No More mess. No more wax smells. Less time consuming. Maximum in client comfort. Reduced redness.

### **Phd Waxing System**

Z001: Kit

Kit includes: 15 x 75g Tubes of Wax; 100 x Pre-Cut Strips, 40 x Disposable Applicators; 250ml Pre Lotion & 250ml Post Lotion, 48 Spatulas and Window decal

# spalogic wax {WAX}

Spalogic Wax offers a wide range of Cold and Hot wax, in different flavours and sizes. Our strip wax removes even the shortest of hairs and is available in 400g and 800g tins as well as 100g Roll on Cartridges. Spalogic Hot wax is available in 1kg's that is divided in easily breakable blocks to fit into your heater. We use non-crystallising Gum Rosin in our formulations. All our hot waxes contain a high volume of Beeswax which is a natural cosmetic element rich in mineral salts and proteins. It guarantees protection, nutrition and moisture. Titanium Dioxide produces a creamy, and very gentle wax that reduces redness in even the most sensitive areas. The creamy and velvety texture is easy to spread and it guarantees an excellent grip that is less painful.

## FILM WAX

Applies like Strip Wax, sets like Hot Wax, and peels off with amazing elasticity. Perfect for any part of the body - especially suited to Brazilian and underarm waxing. Film Wax combines the advantages of a Strip and Hot Wax in one product!

Film Wax Pellets L9:1 kg

## TREATMENT PRODUCTS & CLEANSERS

## Pre wax liquid

L56: 250 m

Calming Chamomile aids in relieving any irritation or redness while Tea Tree oil removes oil and cream residue on the skin.

#### Pre wax Gel

L53: 250 ml

This smooth gel prepares the skin for waxing. Enriched with natural ingredients guarantees a calming and softening action. Immediately absorbed. Cotton milk extracts stops the dehydration of the epidermis and builds up the hydro lipid film and supports the cohesion of the cells.

Alcohol Sanitizes and cleans, eliminating any oil or cream residue. Aloe Vera soothes while Witch Hazel cleanses and tones the skin.

## Post wax Milk

L55: 250 ml

This gentle emulsion, moisturises the skin and restores the hydro lipid skin layer after waxing, thus minimising redness. Coconut crème is also renowned for its nourishing and moisturising properties. Contains Vitamin B (Nicotinic Acid) which helps the skin to retain its moisture and also works as an anti-inflammatory.

## Post wax liquid

L58 : 250 ml

Renowned for its calming and anti-inflammatory properties, Aloe Vera after wax liquid removes any residue wax while soothing and moisturising stressed skin.

## Post wax oil

L57: 250 ml

This gentle after wax oil smoothly removes any wax residue. Rose Extract guarantees a calming and soothing action on the skin after depilation. Sweet Almond oil is renowned for its natural soothing and emollient action, it permits a perfect and delicate depilation. Especially recommended for sensitive skins.

## **Soothing Gel**

L59 : 250 ml

Aloe Vera has a protective, calming, moisturising and refreshing action. It is a cellular regenerator and has anti-bacterial and anti-fungal benefits. Cucumber tones and firms while soothing and softening the skin.

Citrus wax cleaner

L52:250 ml

Citrus wax cleaner

L63:1L

A powerful, ready-to-use cleaner with an active ingredient called d-limonene. One of nature's most powerful solvents, d-limonene is derived from the peels of oranges. This means that, not only is the Citric Wax Cleaner tough on wax residue or dirt, it is made from completely renewable resources and leaves your salon or home smelling citrus-fresh. Highly concentrated, environmentally friendly, non toxic, non -fuming, safe on all surfaces, will not leave film, economical to use, no glycol ethers. Not to be used on skin.

## PARAFFIN WAX AND TREATMENT PRODUCTS

Lavender
L081 : 1 kg
Lavender oil helps heal the skin and encourages new cell growth.

In purchasing from us you are confirming that you have the valid certification and relevant knowledge to utilise or operate said GOODS/purchases. Logica Beauty Supplies reserves the right to request proof of such qualification if deemed necessary. The onus is on the Customer/purchaser to ensure that only suitably qualified personnel operate or utilise GOODS/ products/furniture/equipment which has been purchased.

### **Payment**

Logica Beauty Supplies operates on a COD basis. All goods ordered must be paid for on delivery or collection, or where a third party is used for such delivery, payment should be made prior to goods being sent. In the event of payment not having been received by Logica Beauty Supplies from the customer on delivery of the GOODS, despite proof of payment having been provided, the customer shall pay interest on all overdue amounts from the due date to date of payment, both days inclusive, at the rate of 2% (Two percent) above the Prime Overdraft rate per annum, as charged by Logica Beauty Supplies' bank. We accept cash, and credit cards (excluding American Express & Diners) for payment. We do not accept cheques, If we get an unpaid cheque for any reason whatsoever R100-00 bank charges will be charged and we will no longer accept cheque payments from you. Ownership of the GOODS shall remain vested in Logica Beauty Supplies until the purchase price has been paid in full and any discounts given will be revoked if the amount owing exceeds 120days. In the event of an attorney being instructed to collect any overdue amounts owing by the customer to Logica Beauty Supplies or to institute any legal

all attorney and own client costs, including collection commissions, incurred by Logica Beauty Supplies.

## Delivery

A fuel surcharge will be charged on orders to be delivered as indicated on the Logica Beauty Supplies delivery schedule in the Northern Suburbs, Southern Suburbs and some outlying areas. All furniture deliveries in these specific areas will carry also a delivery charge. Always arrange to be at your premises on the day of delivery. (Else make other arrangements). You will be charged for delivery again if our driver or the independent courier needs to deliver the same parcel to you again. Please ensure your delivery address is correct as we will not be responsible for the cost to resend a parcel that is returned due to an incorrect address. Unfortunately it is impossible for us to give a time of delivery as this depends on variable factors. In the event of us being out of stock on a certain item we will contact you once it arrives. You can then place an order or wait till you place another order as not all back orders qualify for free delivery. Unfortunately back orders are on a first come first serve basis, so we cannot guarantee stock if you do not take it immediately. Back orders are also subject to a delivery fee if the back order is less than R200. This rule excludes furniture which will always carry a delivery fee or courier fee for outlying areas regardless of the amount. Risk shall pass onto the customer/purchaser once POD (proof of delivery) is signed. Any other areas deliveries (not on the Logica Beauty Supplies delivery schedule) will be sent via our nominated carrier and the freight and insurance charge will be for the customer/purchaser's account. Risk shall pass onto the customer/purchaser once POD (proof of delivery) is signed. When using a third party such as a family member or in dependant courier company to collect the parcel on your behalf, the risk shall pass to the person receiving the parcel at our premises. No goods will be sent via courier or post without full payment being made into our bank account. (Please use your client number and name as reflected on the invoice as a reference on the deposit slip) We have to get courier and postage parcels ready before 1 o'clock every day and therefore all orders placed or payments received after this time will only be sent the next day. All parcels sent with couriers will be received within 2 - 4 days from date of payment made. After your order has been placed for courier or postage you will receive your amount

133

for payment within 48 hours via sms, so please ensure that we have your correct cell phone number. Always ensure that all orders are placed by 15h00 (for areas listed on the Logica Delivery Schedule) the day before as our drivers leave early in the morning and we can't keep them waiting. If you need to change or cancel an order please do so the day before delivery by 15h00. No cancellation will be accepted for any goods specially made or ordered. All goods can be viewed at our showroom or on line on www.logicabeauty.com. Ordering can be done by telephone, fax, email or online. Logica Beauty Supplies quotes and sales orders are valid for 14 days only and stock will only be reserved once payment has been made and the order and payment confirmed by Logica Beauty Supplies. This does not mean that the stock is available, but merely that we will order the stock for you once payment has been received.

#### Pricing

Logica Beauty Supplies pricelists vary intermittently as they are subject to fluctuations in the exchange rate as well as price increases from factories. Please ask for a quotation first as prices can change without notice. Please note that the images and information in this catalogue was correct at the time of print, but this could change without prior notice.

### Warrantee

All furniture and equipment sold by Logica Beauty Supplies has a 6 month warrantee and any freight costs incurred for claims or returns will be for the customer/purchasers account. Furniture Warrantee does not extend to upholstery (eg. Vinyl or PU leather) and normal wear and tear including scratches, shrinkages and changes in the colour of the wood. Logica Beauty Supplies reserves the right to refuse any claim should the equipment have:

- · been mishandled in any way,
- been operated by any unqualified personnel,
- failed to have been operated in the means to which it was intended or advised
- been subjected to any lightning strikes or power surges (we insist that all electrical products are used with a surge protector for the safety of consumers as well as the protection of the integrity of the equipment)
- incurred any destruction or damage by fire, tempest, flood, vermin, rust, riot, civil commotion or force majeure
- Warranty does not cover globes, glass items or attachments on equipment, please refer to the individual user manual or warranty slip to ensure you know what is covered under the warranty.

Please ensure that you purchased the correct GOODS/product/equipment/ furniture for your needs and

that you have read the Warrantee and instructions on furniture and equipment prior to use. Should you find on delivery that the goods are unsuitable and return them with our driver, there will be a delivery charge applicable.

#### Returns

Logica Beauty Supplies shall not accept any claim by the customer unless submitted in writing and received by Logica Beauty Supplies within five (5) days of receipt of goods by the customer from Logica Beauty Supplies or the carrier. The claim will only be considered if the goods are in its original packaging and unopened or undamaged. Should the customer fail to communicate a claim as detailed above, the customer shall be deemed to have accepted the GOODS as being in good order and condition in all respects. Please report any damages or shortages within 48 hours of receipt of goods; Logica does not any take responsibility for goods short delivered or damaged after this period. Logica Beauty Supplies reserves the right to appoint a representative of the company to inspect the item returned before a credit, repair or replacement is considered. Sale or shop-soiled items will not be considered for refund or replacement. No refunds will be given in the form of payment, but a credit will reflect on your account. Only goods brought back to us will be considered for credit, and only the amount of which was brought back. If you thus use up half of the product before returning it, you will only be credited for 50% of the product that is unused. Logica Beauty Supplies shall not accept any claim unless the GOODS are returned in the original, undamaged container and/or packaging. Logica Beauty Supplies shall not be liable for any loss of profits, loss of savings, or any other actual or consequential damage of whatsoever nature arising from any defect in the GOODS. Logica Beauty Supplies relies exclusively on the information provided by the manufacturers of the GOODS supplied to the customer, and offers no warranty or guarantee in respect of the correctness of same. Logica Beauty Supplies does not warrant that the GOODS sold to the customer will meet the requirements for which the customer has purchased the GOODS. And any failure on the part of the GOODS will be handled strictly in accordance with the warranty of the manufacturer concerned, the details of which will be provided by Logica Beauty Supplies on request. The customer bears the cost of any unsuccessful claim lodged by Logica Beauty Supplies with the manufacturer of the GOODS on behalf of the customer.
