5 star reviews

Order with confidence!
Hear what our existing customers think by reading from 1000's of 5★ reviews posted on Etsy and Faire.

Eco paper
We use FSC 100% recycled paper stock.

Free POS

Easily display our products in-store with our neat point of sale display unit.

Free images

Download and use our vast range of top-quality images for your webstore and socials.

Corrosion-free

We use high grade metal and a protective finish to keep them rust free.

Greener shipping

We offset all our CO2 emissions, caused by shipping our products from our factory, to our studio, onto stockists.

Plastic-free

All cellophane on our products is plant-based and 100% biodegradable.

sloth and chameleon

orangutan

mantis

meerkat

tree frog

plant animals

Plant Animals are fun decorations for all types of houseplants. An original creation we first designed back in 2017! With a 99% sell-through rate, they're our best selling and most popular collection. Full of character, these cute creatures simply hug the plant stems, clip onto the leaves or stand in the soil. We design Plant Animals throughout the year so this collection will grow alongside your indoor jungle.

There are 28 designs available; Orangutan, Chameleon, Sloth, Koala, Bush Baby, Frog, Monkey, Raccoon, Meerkat, Flying Squirrel, Pangolin, Snake, Praying Mantis, Fruit Bat, Squirrel, Fox, Owl, Parrot, Chimpanzee, Lemur, Damsel, Flying Lizard, Flamingo, Toucan, Tamarin, Anteater, Butterfly and Caterpillar.

new designs

anteater and tamarin

caterpillar and butterfly

pos display

We offer a free POS display that fits up to 15 different Plant Animal designs, allowing you to show a wide range of products in a small amount of space. Made from cardboard it features an attractive botanical pattern. The POS unit is supplied flat and easily folds together by following the included assembly instructions.

Dimensions:
50cm high x30cm wide x22cm deep.

new

botanical art prints

Introducing our brand new range of luxury art prints!

For this new collection, we chose speciality printing methods to make a truly unique and exceptional piece. The prints are stamped by hand using metallic foil which becomes beautifully accentuated when they catch the light. An additional embossing and debossing element is then pressed into some designs to add texture and depth.

Their luxurious finish and size make them a wonderful print to collect, and an easy gift for plant lovers and art collecting aficionados alike. Made in the UK, each piece is printed by hand on high-quality 100% recycled card. A picture mount is included with every print and they are packed in biodegradable cello, sold unframed. Dimensions: 5 x 7" (13 x 18cm).

Dioon edule

Monstera albo

Designs available; Dionon edule with golden foil, Monstera 'albo' with green and pearlescent foil, Caladium Candidum with blush foil and debossed leaves, and Stephania erecta with gold foil and embossed leaves.

WATERING

Infrequent **Moderate** **Regular**

Misting
Another way to add moisture is to spray a fine mist of water. This can help increase humidity and prevent pests.

Drainage
Adding stones or gravel to the base of the pot will help water to drain away from the roots.

Touch Test
Check the moisture level of the soil by pushing your finger 5cm (2") into the soil. How does it feel? If it's damp then it doesn't need any more water today!

Pebble Tray
To increase air humidity, place a tray of pebbles half filled with water underneath your plant pot.

Water Quality: Some plants can be sensitive to the minerals and chemicals found in tap water. If possible, use rain or distilled water.

Top Tip: Water plants thoroughly when the soil is dry to touch. Add enough water to soak the soil, allowing it to drain right through the pot. Don't let the pot sit in water as this can keep the roots wet.

LIGHT

Giving your plant the right amount of light is essential for its health and growth. Each care card advises how much light the plant likes. Take this into consideration when choosing where to place the plant.

Direct Bright

- Choose rooms that receive sunlight most of the day.
- Place plants near windows.
- If plants require bright light, they will most likely want warm temperatures too! Avoid cold areas.

Partial Mid

- Position plants slightly away from the window, behind a blind or netting to avoid direct sunlight.
- East and west facing rooms provide good partial light. Be careful in hotter months if near a window.

Temperature

Plants do not like being placed near air vents, next to radiators or in very cold rooms. More tolerant than others but if your plant is unhappy situated in this location try to a different area.

STRING OF PEARLS

Senecio rowleyanus

Water infrequently, but thoroughly when soil is dry.

Soil must not be wet. Let it dry out between waterings.

Keep in a bright room with partial sunlight.

DESERT

CHINESE MONEY PLANT

Pilea peperomioides

Water regularly keeping the soil moist but not wet.

Ensure adequate drainage.

Keep in a warm, bright room with indirect sunlight.

TEMPERATE

houseplant care cards

Houseplant care cards are the ultimate guide to growing happy, healthy plants! This boxed set contains 35 cards packed full of advice and tips for botanical success indoors. Learn top tips on humidity, light, temperature, watering, feeding, root rot, repotting, soil types, pests and problems, as well as in-depth care advice for specific plants. The Care Cards are laminated in a plastic film to ensure their durability. This means they can't easily be recycled, but this is a conscious choice on our part as it enables them to be used over and over again!

A3 print

Our A3 houseplant print features 30 illustrated plants, with common and scientific names. Printed on 100% recycled, uncoated matt card. Sold unframed.

brass blooms

bouquet set
Cosmos, Lilies,
Gypsophila and
Freesia.

130mm

garden set
Poppy, Pansy,
Echinacea and Lily
of the valley

wildflower set
Forget Me Not,
Marigold, Nigella
and Cornflower

Brass blooms are decorative ornaments for plant pots and terrariums. They come flat and need a gentle twist to free them from their metal sheet. Arrange them in the soil of your plant pot or terrarium to create the perfect mini garden that's always in bloom.

mini models

New designs: Windmill and Tent

house

helicopter

castle

boat

ferris wheel

balloon

Our range of mini models are marvellous miniature trinkets, perfect for livening up terrariums, plant pots, desks, or shelves. Do It Yourself! All mini models come flat and require a few folds to assemble. How-to instructions are included on the packaging.

mini mushrooms

Mini Mushrooms are fun decorative ornaments for your plant pots and terrariums. Use them to create a miniature woodland scene inside your terrarium, or spread them amongst your plant pots as if it were 'mushroom season'. Simply twist the mushrooms to release them free from their metal sheet and push them into the soil. The mushrooms in the set are; Fly Agaric, Enoki, Inky caps and Chanterelle.

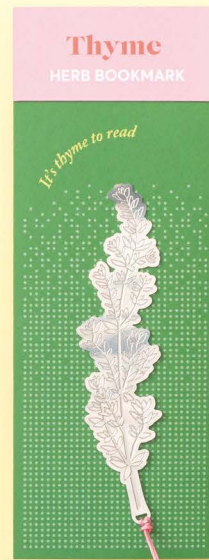

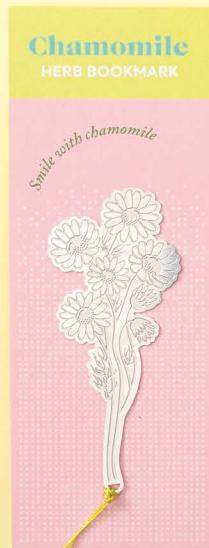

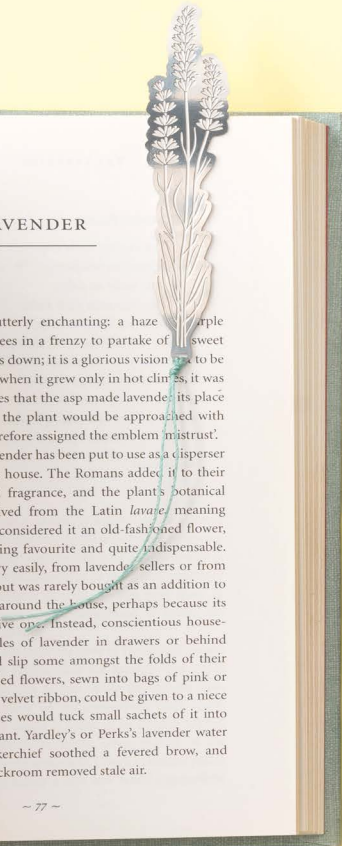

mushroom bookmarks

This set of 4 bookmarks features some of our favourite mushrooms we've found when foraging through forests; Clustered bonnet, Fly agaric, Hoof fungus, and Oyster mushrooms. Use these mushroom clips to organise paperwork or mark your book. Slide them on top of your page and see the fabulous fungi 'grow' out of your book!

herb bookmarks

These delicately detailed herb bookmarks are inspired by some of our favourites; Lavender, Rosemary and Thyme. Etched in stainless steel, each bookmark is complete with a colourful twine for marking your book. Their bold packaging compliments the Herb Care Cards, making them a great gift bundle.

92mm

herb care cards

Herb care cards are an essential guide to growing happy healthy herbs! This boxed set contains 35 cards full of practical tips on how to grow, maintain, preserve and use a variety of herbs. Learn when to propagate, harvest or prune them, discover unusual uses for the herbs, and learn about food pairing suggestions ...delicious! The Care Cards are laminated in a plastic film to ensure their durability. This means they can't easily be recycled, but this is a conscious choice on our part as it enables them to be used over and over again!

Matching this box set is an A3 Herb print featuring 30 fabulous herbs. It is printed on 100% recycled, uncoated matt card. Sold unframed.

bookmark sets

Discover our range of stainless steel bookmark sets that feature four different clips per set. Use them to mark your book or organise paperwork by sliding them onto your page. Each bookmark is etched with realistic details. They are available in four different designs; Houseplants, Insects, Mushroom and Tropical Birds. Find fun facts about each design on the packaging reverse!

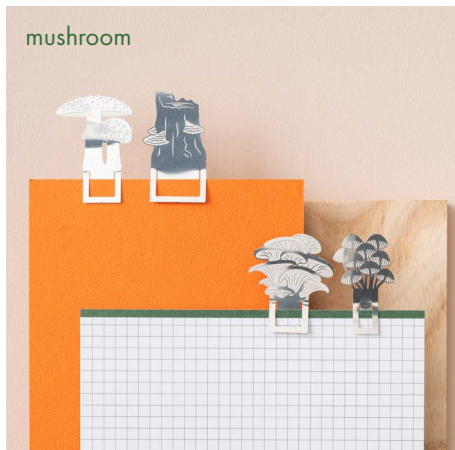

houseplant

insect

mushroom

tropical birds

also available in steel

leaf bookarks

Organise your files or mark your book with these stylish Leaf bookmarks. Featuring four beautiful detailed leaves: Variegated alocasia, Peperomia argyreia, Caladium bicolour and the Begonia maculata. Slide them onto the 'leaves' of your book to mark your page.

hanging bookmarks

Our trailing bookmarks are inspired by the hanging plants in our studio! These statement bookmarks hang from the top of your book, the leaves trail down the page, marking where you left off. They are packed as single bookmarks, with two designs available; tradescantia and pothos.

design stencils

Make beautiful creations with our art inspired Design Stencils. Each drawing template includes motifs, patterns and typefaces from three world-renowned art movements of Bauhaus, Art Nouveau and Art Deco. Made from steel with a matt gold finish.

brass bird

The brass bird is an elegant mobile decoration that can be hung from your houseplants, ceiling or lampshade. Fold the bird together and place it in its perfectly rounded hoop and enjoy watching it gently sway in a light breeze.

Arrives flat and only needs a few folds to assemble, how-to instructions are included on the packaging, alongside a golden string for hanging.

A personal touch

We design every product and ship every order from our lovely plant-filled studio in London. As an indie business, you can expect only the best friendly service from us and a quick response to any queries you have.

Another Studio was founded by Aimée in 2009. Inspired by ephemera, architecture, flora and fauna, we are enthusiastic about every product we create, especially if it plays with scale. We take pride in experimenting with, and refining new ideas, so each product release is fresh and fun for you as well.
