Open the APP - "Smart Life", sign up for a new account or log in with an existing account.

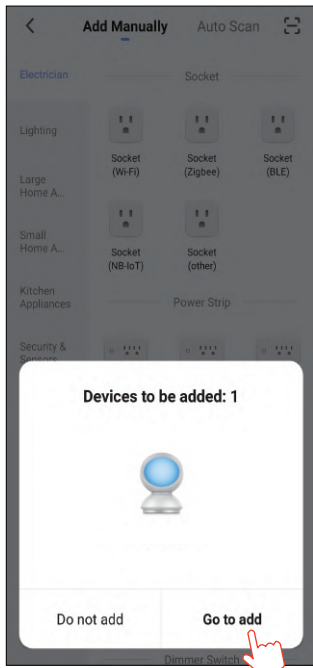

## APP connection

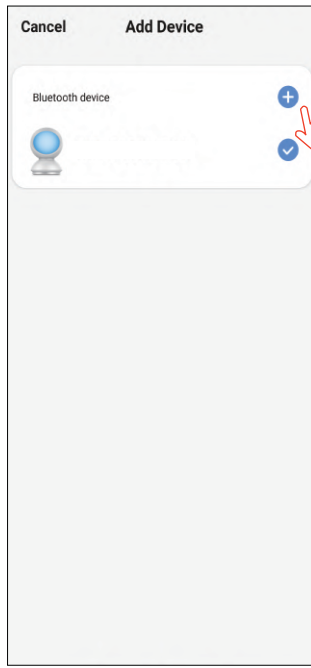

1.Preparation: Power on the LED lamp and open the APP, please make sure your mobile and the smart kits are connected to the same WIFI.

2.Connect the LED lamp:

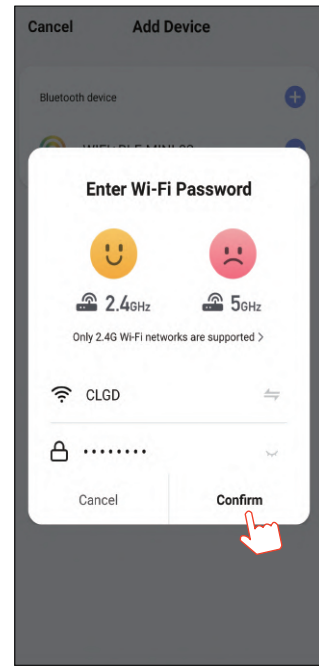

Option 1: The LED lamp will flash after powered on, tap the button "Add all devices" on the APP. The APP will popup an interface with a tips about the info of the LED lamp, tap the "Add" button, it will shows the interface "Bluetooth devices", then tap the "+", next log in with the WiFi password, the devices will connect automatically, wait until pairing is successful and tap "Done" to enter into the mode control interface.(If option 1 is not suitable for your devices, please try option 2).

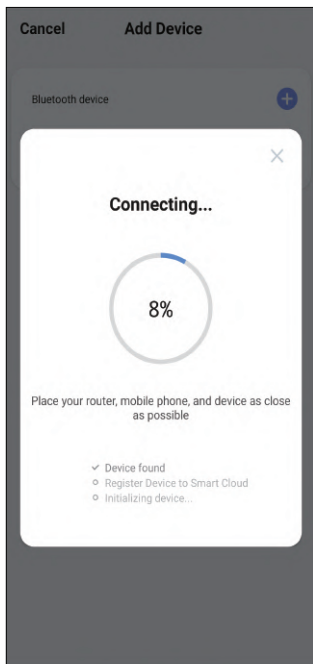

Step 1

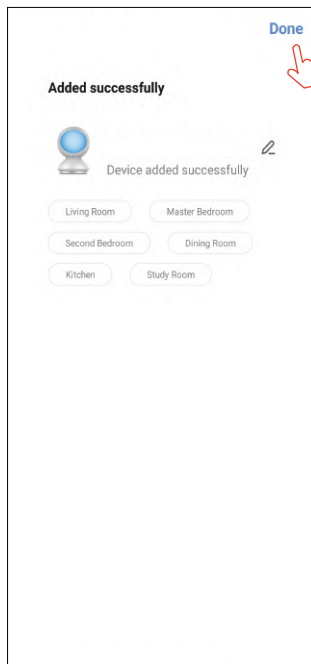

Step 2

Step 3

Step 4

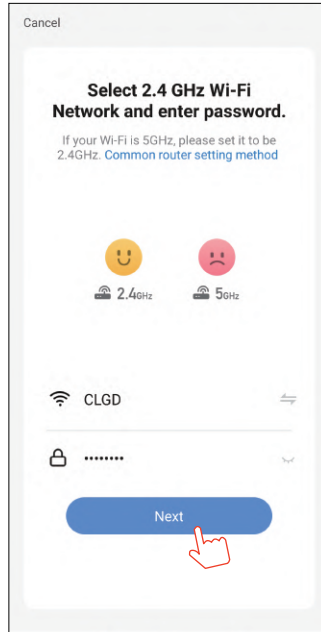

Step 5

3. When the LED lamp is not flashing after powered on. Please press and hold the function button for over 5 seconds, the light will perform a quick flash, open the APP and choose to add all the device in the corresponding room in the APP. Open the interface of adding lighting device and match the LED lamp.

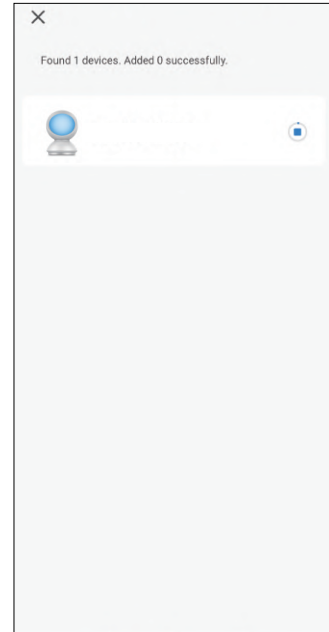

Solution 2) : The LED lamp will flash after powered on, tap the button of "Add all devices" on the APP. Enter into the interface of "Add manually" and choose "Lighting" then the corresponding "LED lamp" , this will take you to the interface of devices pairing, log in the correct WiFi name and password and tap "Next" (make sure all devices should be connected to same WiFi). Make sure the LED strip is under quick flash status, then tap "Next" to start pairing. Just wait until pairing is successful and tap "Done" to enter into the mode control interface.

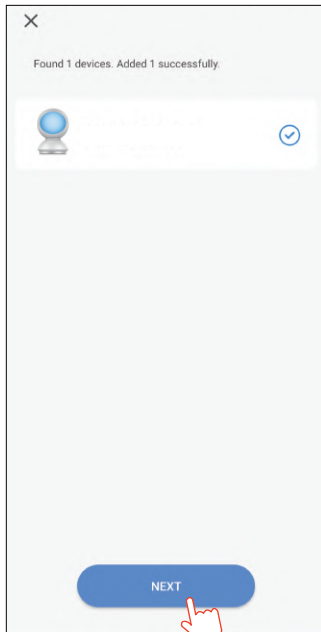

Step 1

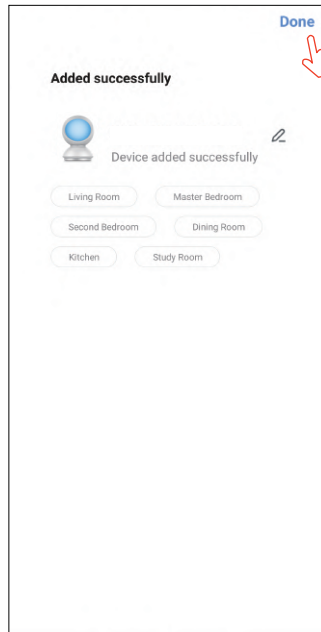

Step 2

Step 3

Step 4

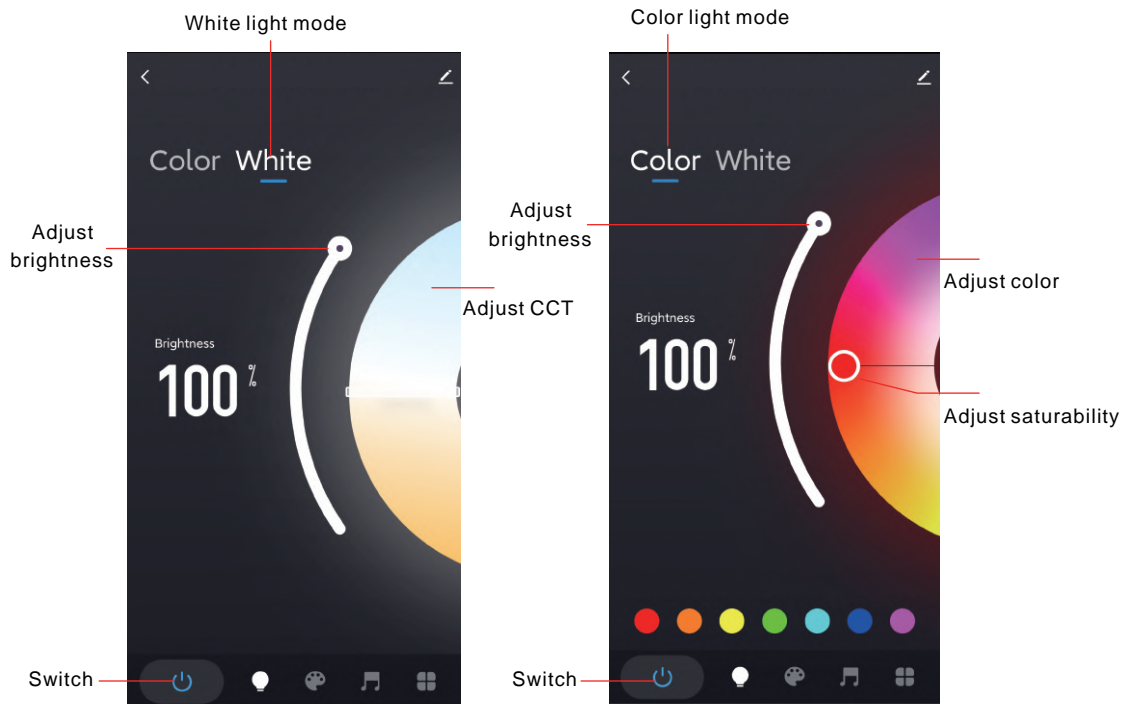

Step 5

The UI is for reference only (subject to the latest UI of the APP downloaded on your mobilephone).
