SL-5FT-50W	Black/White	4000K/5700K	50W	1500x33x60mm
SL-6FT-60W	Black/White	4000K/5700K	60W	1800x33x60mm
SL-8FT-80W	Black/White	4000K/5700K	80W	2400x33x60mm

### Installation

#### Wiring

L: Brown  
N: Blue  
⊕: Green/Yellow

#### Step 1

Use the hole in the ceiling cover to mark the mounting position. Then, drill a hole of the appropriate size at the marked position and insert the expansion rubber plug.

#### Step 3

Tighten the suspension kit to the top slot of the linear light fixture.

#### Step 2

Pass the hanging wire through the bottom of the ceiling cover and secure the cover to the mounting position by screwing it in place.

#### Step 4

Make sure the suspension wires are spaced the same as the holes in the ceiling, then secure the screw to the light fixture.
