

Advanced Facial Therapist - Level II

7 Days / Day 1 - 7 (10:00 am - 4:00 pm)

Certification: Advanced Facial Therapist

Includes: Manual & Student Facial Kit

This 7 day course is designed for those previously certified in the Facial Therapist course. In this Advanced Facial Therapist course, you will be introduced to the use of high frequency, galvanic, rotary brush and micro-stimulation. The manual also includes a review of the following: bacteriology and sanitation, the skin's structure and its functions and advanced skin type evaluations. Theory will include a discussion on AHA's and BHA's used in skin care and chemical exfoliation, contraindications, product knowledge and extensive repetitive practical hands on training using our professional chemical peel skin care line. Each student will be given the option to receive a chemical peel and will require models with skin care concerns. Models required.

Course Outline:
