4CYTE™ EPIITALIS® Forte Gel 1lt & 250ml

4CYTE™ EPIITALIS® Forte Gel is a premium daily horse feed additive used to protect and repair damaged joints, and actively maintain joint health. The revolutionary property of **4CYTE™ Gel for Horses** is **EPIITALIS®**, our exclusive plant seed oil patented for its cartilage repair and pain relief properties.

Benefits

4CYTE™ EPIITALIS® Forte Gel is safe to take long-term, and is used to:

- Address symptoms such as stiffness or lack of willingness to jump, canter or gallop.
- Complement prescription joint pain treatments.
- Support healing after a joint injury or surgery.
- Protect, maintain and promote healthy joints in high-performance horses.

Other benefits include:

- Simple, non-invasive application.
- Non-swabbable.
- Small, cost-effective once-daily dosing.
- Should produce clinical improvements within 7-14 days.
- Surgeon and veterinarian endorsed.
- Has undergone in-vitro, in-vivo clinical studies.

Daily Dosage:

Loading dose: Start on 8g per day for 14 days

Maintenance dose: After 14 days, reduce to 4g per day. Dosage can be varied based on weight of animal and state of joint function.
