

## ECO BLASTER - The Portable Pressure Washer & Water Source

The Eco Blaster is a complete pressure washing system in a box. These compact, self-contained units can be loaded into any vehicle or garden wagon, and are especially useful for cleaning in locations with limited access to water.

Eco Blaster incorporates the Mi-T-M Work Pro Series Pressure Washer ( 2700 PSI / 2.4 gallons per minute ). Powered by a HONDA GC 190 Gas Motor with a Mi-T-M Direct Drive Axial Piston Pump with Brass Manifold. A 10 gallon water tank, 20 feet of high pressure hose and wand are included. Just add water, and you're ready to rinse!

Built in garden hose coupling for switching to alternative water source.

Sturdy, 'Military Grade' ultra high strength case with 3 convenient handles. Outside dimensions: 31" L x 19" W x 17" H.

Industrial-strength, injection-molded pull handle. 4 wide set, in-line skate-style wheels for easy wheeling.

Integrated Auxiliary Hand Pump for priming pressure washer.

Removable Stainless Steel Filter built into water tank.

Exterior drain cap for easy drainage.

*"What we needed most was portability...we have a rather large campus, and often times we have just one guy with no easy water source, operating out of a small mule or electric vehicle. We were also unable to mount anything permanently to the vehicle as it is used for various tasks. We love the Eco Blasters we currently have as they are everything in one."*

*Jessica Regensberg  
University of New Mexico, NM*

*"By purchasing the Eco Blaster we were able to set up a graffiti removal program using our mini-van, without requiring an expensive dedicated truck or trailer...the youth we work with really enjoy using it."*

*Francisco Medrano  
San Diego County Youth Offenders Unit, CA*
