**TECHKO®**

**Model:SHL-901**

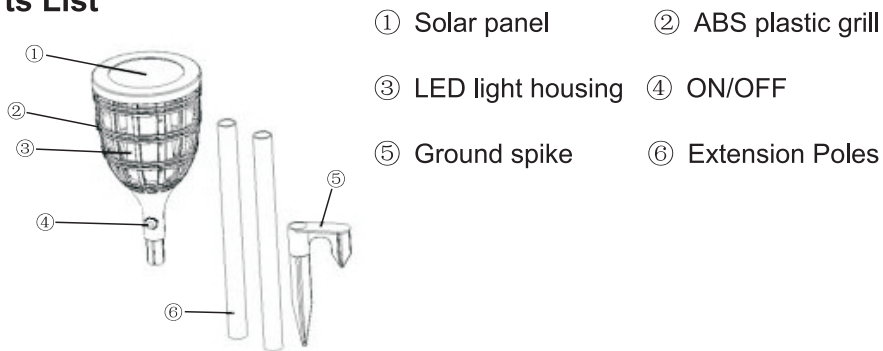

◆ Please carefully read this manual before using the product.

◆ Keep the manual with you for reference as needed.

### PLEASE FULLY CHARGE THE PRODUCT BEFORE USING

- Charging time may be very depending on the weather, temperature, and seasons.
- Do not charge the solar lantern indoors or any place where direct sunlight can't reach the solar panel. Otherwise, the product will not charge properly.
- Please keep the solar panel clean to make sure the product can be properly charged.
- Frequently clean the solar panel as needed. Avoid scratching on the panel or it may lower charging efficiency.
- If the light blinks, the power is low. The device will stop functioning soon unless recharged in sunlight.
- The light should be charged for approximately 5 hours under the sunlight before use.

### Parts List

- ① Solar panel
- ② ABS plastic grill
- ③ LED light housing
- ④ ON/OFF
- ⑤ Ground spike
- ⑥ Extension Poles

### Lighting Modes

1. The light has multiple modes to choose from. Push the ON/OFF button to cycle through the available modes until you reach the desired selection.
2. Still mode provides a constant lighting effect.
3. Flame mode imitates a flickering flame effect.
4. Pulse mode slowly brightens up and then fades back down in lighting.

### HOW THE SOLAR POWERED LIGHT WORKS

In the daytime the light will automatically turn off and begin to charge the battery.

The solar panel has a photosensor to detect light. At night, the light automatically turns on using the power stored (you also can cover the solar panel with your hand to simulate night mode.)

### WARNING & NOTICE

- Do not look directly at the LED light, or it may damage your eyes.
- Do not attempt to disassemble or remodel the product. Any changes can be dangerous and will void the warranty.
- Please keep the product away from flammable items, or explosion or injuries may occur.
- Please switch OFF the product when it is not in use for a long period of time.
