TECHKO[®]
Model:SHL-903

- ◆ Please carefully read this manual before using the product.
- ◆ Keep the manual with you for reference as needed.

PLEASE FULLY CHARGE THE PRODUCT BEFORE USING

- Charging time may be very depending on the weather, temperature, and seasons.
- Do not charge the product indoor or any place where direct sunlight can't reach. Otherwise, the product will not charge properly.
- Please keep the solar panel clean to make sure the product can be properly charged.
Frequently clean the solar panel as needed. Avoid scratching on the panel or it may lower charging efficiency.

INSTALLATION INSTRUCTIONS

1. Use the supplied screws and mount on the wall.
Be sure to leave some threading partially exposed to mount the light.
2. Press and hold the button for 3 seconds to turn on.
3. Hang up the light fixture.

HOW TO OPERATE

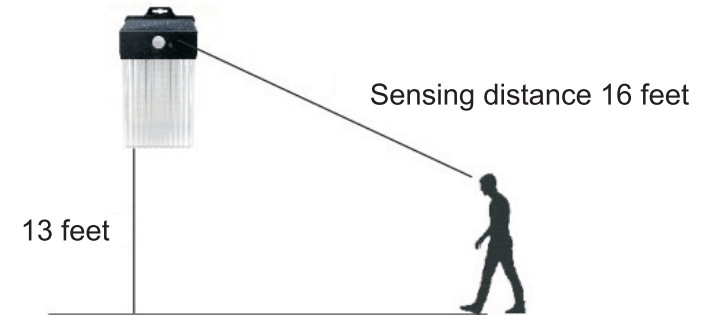

1. During the day the unit charges and turns off the light; when no light is detected the unit will automatically turn on.
2. Each press of the button will cycle through the lights setting.
 - (A). Power on: Turns the unit on to begin its function based on current light detected.
 - (B). Power off: Turns the unit off and it will no longer light up in the dark

FUNCTIONS

When in the detection area, the light is always bright, and after the person leaves the detection are for 30 seconds, the light enters into the power saving mode.

In ideal weather conditions, the unit recharges within 7-8 hours.

The delay time for a bright light is 30 seconds when someone is nearby.

WARNING & NOTICE

- Do not look directly at the LED light, or it may damage your eyes.
- Do not attempt to disassemble or remodel the product. Any changes can be dangerous and will void the warranty.
- Please keep the product away from flammable items, or explosion or casual injuries may occur.
- Please switch OFF the product when it is not in use for a long period of time.
