Round Decorative Lantern

USER MANUAL

■ support@techkogroup.com

Model: SHL-905

- Please carefully read this manual before using the product.
- ♦ Keep the manual with you for reference as needed.

PLEASE FULLY CHARGE THE PRODUCT BEFORE USING

- Charging time may be very depending on the weather, temperature, and seasons.
- Do not charge the solar lantern indoors or any place where direct sunlight can't reach the solar panel. Otherwise, the product will not charge properly.
- Please keep the solar panel clean to make sure the product can be properly charged.
- Frequently clean the solar panel as needed. Avoid scratching on the panel or it may lower charging efficiency.

How to Operate

- Slide thes witch from the "OFF" position to the "ON" position.
- Place the light in the desired location but ensure there is optimal sunlight available.
- Lighting pattern becomes more detailed when closer to surfaces.

HOW THE SOLAR POWERED LIGHT WORKS

In the daytime the light will automatically turn off and begin to charge the battery.

The solar panel has a photosensor to detect light. At night, the light automatically turns on using the power stored (you also can cover the solar panel with your hand to simulate night mode.)

WARNING & NOTICE

- Do not look directly at the LED light, or it may damage your eyes.
- Do not attempt to disassemble or remodel the product. Any changes can be dangerous and will void the warranty.
- Please keep the product away from flammable items,or explosion or injuries may occur.
- Please switch OFF the product when it is not in use for a long period of time.
