Solar Spot Light

USER MANUAL

TECHKO[®]

Model: SHL-923

▲ Please carefully read this manual before using the product.

▲ Keep the manual with you for reference as needed.

PLEASE FULLY CHARGE THE PRODUCT BEFORE USING

1. Please turn the product to the setting and fully charge under direct sunlight before use.
2. Charging time may vary depending on the weather, temperature, and seasons.
3. Do not charge the product indoors or any place where direct sunlight can't reach. Otherwise, the product will not charge properly.
4. Please keep the solar panel clean to make sure the product can be properly charged. Frequently clean the solar panel as needed. Avoid scratching on panel as it may lower charging efficiency.

GETTING TO KNOW YOUR LIGHT

Switch & Functions

1. Connect the solar panel connector line first, install the solar panel and fix the position of outdoor sun exposure, hang the lamp cap shell at will and place the lighting position.
2. Push the switch to turn the light on, if needed, push the switch again, turn off the light.

Transparencies Take out before use

When installing for the first time:

1. Remove the plastic pull tab on the remote control
2. **Install the solar light during the daytime, so that it can charge before it turns on at night.**
3. **NOTE: If you want to see the light during the daytime, you may need to bring it to a dim enough place or cover the solar panels and use the remote.** (see instructions below)

Operating Instructions:

NOTE: The only way to turn the solar light on/off is by using the remote control.

IMPORTANT: Please keep the remote control in a safe place so that it does not get lost.

1. To turn ON the light with the remote: Press the button to turn on the light.
2. To turn OFF the light: Press the power button.
3. To adjust the brightness of the light: press the 25%, 50%, 100%, buttons.
4. To set a timer, so that your lights run during a specified time frame: Press the appropriate buttons:
 - a. 3H: Three Hours
 - b. 5H: Five Hours
 - c. 8H: Eight Hours
