Solar Garden Light

USER MANUAL

TECHKO[®]

Model: SKL-504

- ▲ Please carefully read this manual before using the product.
- ▲ Keep the manual with you for reference as needed.

PLEASE FULLY CHARGE THE PRODUCT BEFORE USING

1. Secure the unit and fully charge in direct sunlight and select desired operating mode before use.
2. Charging time may vary depending on the weather, temperature and seasons.
3. Do not place the product indoors or any place where there is no direct sunlight. The product will not charge properly.
4. Keep the solar panel clean to ensure the product can be properly charged. Frequently clean the solar panel as needed. Avoid scratching on the panel or it may lower charging efficiency.

INSTALLATION INSTRUCTIONS

Garden Light

(Please see Figure A for reference)

1. Assemble the 2 section poles accordingly then connect the ground spike to the pole. Secure the main body of the solar light to the top of the pole.
2. Position the ground spike and press firmly into the ground to secure the solar light.

▲ Please install the unit in a place where the solar panel can be continually exposed to the sun.

▲ Avoid placing the unit where shade from buildings or objects would block the solar panel.

Switches & Functions (Please see Figure B for reference)

1. Slide the switch to the desired position.
 - a. White - Changes the lights color to a bright white light
 - b. Amber - Changes the lights color to a warm amber light
 - c. Off - Move the switch to the center to turn the solar light off.
2. Even when the unit is on White or Amber settings during the daytime, it won't illuminate as the solar panel is equipped with a daylight sensor. The product will automatically charge during the daytime and turn on at dusk or when surroundings turn dark.

- ▲ The switch is on the top of the solar unit.
- ▲ The product can be charged in all operating modes. The solar panel is equipped with daylight sensor. The product will charge in direct sunlight during the daytime and automatically turn on at dusk.
