Model: STL-222

▲ Please carefully read this manual before using the product.

▲ Keep the manual with you for reference as needed.

### FULLY CHARGE THE PRODUCT BEFORE USING

1. Secure the unit and fully charge in direct sunlight and select desired operating mode before use.
2. Charging time may vary depending on the weather, temperature and seasons.
3. Do not place the product indoors or any place where there is no direct sunlight the product will not charge properly.

### SWITCH & FUNCTIONS

▲ The switch is on the top of the solar unit.

1. Slide the switch to the desired position.
  - a. Flame Mode: Slide switch to the “Flame” position. The light will illuminate with a flickering flame effect.
  - b. Still Mode: Slide switch to “Still” position. the light will stay illuminated. Please note all LED's will not be illuminated in this setting.
  - c. Off Mode: Slide switch to the “ON” position, the light power is off.

▲ The product can be charged in all operating modes. The solar panel is equipped with daylight sensor. The product will charge in direct sunlight during the daytime and automatically turn on at dusk.

▲ Avoid placing the unit where shade from buildings or objects would block the solar panel.

### OPERATING INSTRUCTIONS

1. The handle is located on the top of the unit, around the solar panel.
2. After the unit has fully charged, change the switch to the desired position to select the operating mode.

### WARNING & NOTICE

1. Do not look directly at the LED light for a long period of time, or it may damage your eyes.
2. Do not attempt to disassemble or remodel the product. Any changes can be dangerous and will void the warranty.
3. Keep away from any flammable items, or explosion, property damages, or casual injuries may occur.
4. Keep the solar panel clean to make sure the product can be properly charged. Frequently clean the solar panel as needed. Avoid scratching on the panel or it may lower charging efficiency.
