# OXYCURA™

## X SERIES HANDLE™

 Read All Directions Before Use 

Using Oxycura with the X Series Handle is simple. Before using make sure your skin is thoroughly dry and clean of any lotion or serum.

## User Manual

## How to use:

Using the Oxycura in combination with any X device will provide a fresh and revitalized appearance on your skin.

Oxycura will bring a brighter, even look to your face and boost the effectiveness of blood circulation, hydration and protection to the skin, while X devices will fight the signs of aging and reduce the appearance of dullness.

The skin will look bright and moisturized and will have a natural protective coating to it.

## Cream Use:

**It is not necessary to use cream with the X Series Handle to get the results you are looking for, you can also use your X Series Handle on dry clean skin to get amazing miracles results.**

If you want to use your X Series Handle and the X devices you own with cream:

### 1. When using Levigo Cream:

Apply the Levigo Cream on your skin or directly on the treatment head of the X device, treat your skin for 3-5 minutes in long motions.

After that, attach the Oxycura X Series Handle to keep treating your skin for 3 more minutes.

### 2. When using other cream:

Apply the cream that you want to use either on your skin or directly on the treatment head of the X device, treat your skin for 3-5 minutes in long motions. After the cream was absorbed and there is no residue of the cream on your skin, attach the Oxycura X Series Handle and continue the treatment for 3 more minutes.

## Step 1:

Attach the Oxycura to the X Series Handle and secure it well so that the handle is properly attached. Make sure that the handle's upper ring is locked in (like in pic 3).

## Step 2:

Take the X Series Handle tube and connect it to the water tank bold part, so the oxygen can go through the tube to the X Series Handle.

## Step 3:

Turn on the X device you own, select the program you want to use on your skin with the Oxycura.

## Step 4:

Use the X Series Handle directly on your skin.

## Step 5:

Gently move it in smooth, long motions. Use the Oxycura with the X Series Handle once a week, 3-5 minutes per area.
