

Chocolate Coffee Scrub

Coffee and Chocolate, two wonderful smells that bring comfort to many. Bring this comfort to your skin with a DIY body scrub. This exfoliating scrub is infused with oils, so not only does it smell wonderful, it will leave your skin feeling soft after use.

Prep Time: 10 minutes

Cook Time: 0 minutes

Serves: n/a

INGREDIENTS

1 cup raw sugar

1/4 cup organic unrefined coconut oil

2-3 tbsp organic cocoa powder (depending on how rich you'd like it)

1/2 cup organic [Coast Roast organic coffee](#) (freshly ground)

DIRECTIONS

1. Grind coffee to a medium coarseness.
2. In a medium bowl, combine sugar, cocoa, and ground coffee until well incorporated.
3. Add the coconut oil and mix well. Add more coconut oil or raw sugar to adjust consistency. You want it to be soft and easily scoopable, not too runny and greasy. Mixture should be dry, but clump together.
4. Transfer mixture into jars or plastic containers for use in the bath.

Notes:

Since this contains coconut oil, it will be more solid at cooler temps and softer at room temperature.

To Use:

Mix with a little water, then rub all over skin and rinse. You can rub it on dry or wet.
