# MACKINAC ISLAND

In this painting, Eric has captured the magic of days long ago, where fun in the sun was somewhat of a formal affair. Today, as then, you can stroll along in the summer sun where motor cars mingled with horse and carriage on the roads. As you sunbathe leisurely on the beach, a picnic and a game of badminton may be part of the afternoon's activities. Mackinac Island is a wonderful place to get away, relax in a beautiful setting, and appreciate the islands many treasures. Make it a priority as well to indulge in Mackinac Island Fudge and its endless varieties. Enjoy some on the island and bring some home too.

1. Grand Hotel
