# ANNAPOLIS

As the capital of Maryland, Annapolis is rich with history. At one point it was the nation's capital and was where George Washington signed his commission to be commander-in-chief of the Continental Army. Annapolis is home to the historic State House, United States Naval Academy and St. John's College. Eric's depiction of this colonial city includes all of the landmark buildings, monuments, people and ships that one would expect to see if going back in time.
