HARVEST FESTIVAL

Autumn is a magical time of year as the gardens, forests, and fields go to sleep for the winter. They leave us with colors like red, orange, and yellow to make us feel warm as the seasons change. Now it's time to gather your family and head over to the harvest festival and pumpkin patches! Hundreds of pumpkins wait their turn to become something only you would love! Perhaps a wizard, a witch, or a monster! The possibilities are endless. This painting with its rich colors and intricate details will bring the spirit of autumn alive in your home, just in time for Halloween!
