SYDNEY OPERA HOUSE

"G'day mate!" Welcome to Sydney Australia. In Eric's reboot of his Australian painting, the Sydney Harbour Bridge, known to locals as "the coat hanger," stands proudly above historic Luna Park with the globally identifiable Sydney Opera House sitting in stately elegance against the Sydney skyline. Featuring activities popular with tourists and boats out on the harbor, Eric's painting brings out some of Australia's most populous city's popular areas and parks. Spend some time down under in Sydney, where hearts are warm and the drinks are cold.
