# Maintenance, Care & Handling

- Clean tobacco chamber and nozzle after every use.
- Clean your Gambler™ Cigarette Making Machine regularly by blowing tobacco residue from moving parts. Use a cotton swab and warm water to clean the injector, tamper and tobacco chamber.
- **DO NOT OVERFILL THE MACHINES!** Overfilling the machine with tobacco will cause the machine to jam. It will also bend the arm that injects the tobacco into the tube. **DO NOT FORCE THE HANDLE!** If it feels like you have to force the handle, you are using too much tobacco. STOP and REMOVE some of the tobacco before continuing. Overfilling the machine will void all warranties through the manufacturer.
- To avoid jamming of the device, do not use the following types of tobacco:
  - OVERLY MOIST TOBACCO (SUCH AS PIPE TOBACCO)
  - OVERLY DRY TOBACCO
  - VERY FINE CUT TOBACCO
- **KEEP FINGERS CLEAR OF THE TOBACCO CHAMBER WHILE OPERATING CRANK ARM TO AVOID CUTS OR LACERATIONS!**  
(see Fig. G)
- **NEVER ROTATE CRANK HANDLE WITHOUT CIGARETTE TUBE ON NOZZLE. EXTENDED INJECTOR IS VERY SHARP!** (see Fig. H & I)
- **DO NOT OVERLOAD THE TOBACCO CHAMBER! DOING SO WILL CAUSE RESISTANCE IN THE CRANK ARM AND FORCING THE CRANK ARM WILL VOID THE WARRANTY!**
