

Power Burner

FIREMAGIC®

BUILT WITH PASSION. OWNED WITH PRIDE.

Experience the heat intensity when using the Fire Magic® Power Burner

WHY USE A POWER BURNER?

- Outstanding side cooker provides versatility in cooking.
- Up to 60,000 BTU's of cooking power, knob on left for inner burner has a range of 3,000-15,000 BTU's. Larger knob on right for outer burner has a maximum of 45,000 BTU's.
- Back-lit control knobs for added aesthetics and visibility.
- The **10" diameter, Heat Concentrating Flame Collimator** focuses heat in the center 25% of unit (for wok cooking, turkey frying or any other dish needing up to 190 BTU/sq. in. of heat).
- Power switch for easy operation.
- Power Burner Plugs in to the Echelon Diamond or Aurora Grill transformer for power.
- Also available in a battery operated version.
