

BFD1

Product Specification

Specification

Fully welded construction in grade 304 stainless steel tube, 32mm diameter. Slip resistant Satin Stainless Steel with. The BFD1 Bariatric Fold Down Grab Rail is a lightweight operation fold up Grab Rail which takes a dynamic load of 300kgs. Locks in the "Up" position, and exceeds the requirements of AS1428.1 as a Folding Grab Rail. BFD1 is a foldaway Grab Rail extending 850mm off the wall and can be used to assist people as they move from sitting to standing or side transfer. Designed and engineered for maximum strength while keeping with the dynamic load boundaries of an F17 constructed wall. BFD1 is designed as a pivoting Grab Rail, which is adjustable tension, making it virtually weightless and therefore light and easy to fold up or down. It automatically locks in the up position and will not fold down unexpectedly. Release of the lock is a simple 1/6th of a rotation with the hand on the sliding strut. Hand Rail Industries™ products are made to the highest standards and currently the only TGA registered grab rail manufacturer in Australia.

Guarantee

Hand Rail Industries™ products are fully guaranteed against faulty workmanship and material defects subject to normal wear and tear of the product for a period of 5 years.
