

How to build The Twinny

Mustard lockers are beautifully designed to make putting them together simple + argument free! No tears + no allen keys! All you need to get started is a **phillips head screwdriver!**

We've made a video taking you through the build step by step. Watch it here: mustardmade.com/build-it. It's easy, you got this!

We recommend you attach the locker to the wall to prevent tipping + causing injury. Use the extra screws + plugs to screw through the two holes in the back panel (as required for your wall).

- 16 x brackets
- 2 x posts
- 2 x large washers
- 2 x L shape posts
- 4 x screws
- 4 x small washers
- 2 x handles
- 2 x sets of keys (attached to door)
- 2 x keyrings

1

Stand both legs up + push the side panels down onto the legs.

TIP: make sure the legs face the correct way!

2

Slide the middle frame onto the legs.

TIP: the slots go at the top!

3

Push the back panels into place, starting at the bottom.

4

Fold down the tabs on the four corners of the back panels.

5

Add the bases, starting at the front. Push the bases down into place.

6

Add the top panel starting at the front. (You might need an extra pair of hands for this bit!)

TIP: the top should sit in the slot in the middle frame.

7

Check from all angles that the side + back panels are slotted in correctly.

Click the top into place.

8

Insert the rails + pull down to click in.

Add the brackets + place the shelves on top. Use the round holes to help you measure the height.

9

Insert the post + large washer in the hole in the leg.

10

Slide the door down onto the post.

At the top of the door, insert the L shape post up into position. Bend the tab up.

11

Add the second door.

Grab your screwdriver!

Use your screwdriver to attach the handles with the small screws + small washers.

12

Wow! Look what you've built! Now you can play around with where you'd like the shelves + live tidily ever after!

P.S. pop the spare keys in a safe spot just in case!

**you got
this!**
