

## **Application guide for your transfer sticker**

**Step 1 :** Using a damp sponge or cloth, clean the following suitably the surface where your sticker will be placed.

**Step 2 :** Gently and delicately remove the paper inside you ensuring that your sticker stays well stuck to the transfer layer transparent. If a part of your sticker is removed at the same time as the paper, press it until it stays stuck to the layer of transfer.

**Step 3 :** Place and align your sticker against the chosen surface.

**Step 4 :** Then use a credit card or something similar to a credit card to smooth out your transparent layer and make sure it's smooth is completely glued to the placement surface.

**Step 5 :** Gently and slowly remove the tape from your layer, making sure that your sticker is really stuck to the layer and that the surface. If you see that part of the sticker does not come off of the transfer layer, glue it completely back onto the surface and Repeat the previous step.

**Step 6 :** Admire the result !

**We hope that you will enjoy your Viking Sticker !**
