Anti-Distracted Driving

Introducing TransHold – where innovation meets elegance in the world of hands-free convenience. Embrace a new era of sophistication with our transparent cradle design, seamlessly blending style with secure device support. The Dashboard and Windshield Mount ensure stability during every journey, while the quick installation makes TransHold an effortless addition to your daily routine. With high stability, multi-angle support, and intelligent auto clamping, it's not just a mount; it's a statement of cutting-edge technology. One touch releases the extraordinary, and with a wide 4.7-7.2" device compatibility, TransHold adapts to your device needs effortlessly. Crafted from a fusion of ABS, Silicone, Acrylic, TPU, and Metal, TransHold is more than a mount – it's a work of art. Elevate your driving experience with TransHold – redefine style, redefine convenience

Transparent Cradle Design

The TransHold boasts a sleek and transparent cradle design, adding a touch of sophistication while securely holding your device in place.

Dashboard, Windshield Mount

Versatile mounting options for easy installation on the dashboard or windshield, providing flexibility to suit different preferences.

Quick Installation

Enjoy a hassle-free setup with TransHold's quick installation feature, making it easy to integrate into your daily routine.

High Stability Mount

Benefit from a high stability mount that keeps your device securely in place even during bumpy rides, ensuring a reliable hands-free experience.

Multi-Angle Support

Find the perfect viewing angle with multi-angle support, providing flexibility and optimal visibility for your device.

Intelligent Auto Clamping

Experience seamless usage with intelligent auto clamping – simply place your device in the cradle, and it securely clamps in place with a touch.

One Touch Release

Effortlessly retrieve your device with the one-touch release feature, combining convenience with efficient functionality.

4.7-7.2" Device Compatibility

The TransHold accommodates devices ranging from 4.7 to 7.2 inches, offering broad compatibility for various smartphones.

Durable Material

Crafted from a blend of ABS, Silicone, Acrylic, TPU, and Metal, the TransHold ensures durability and a sleek aesthetic, promising a reliable and stylish accessory for your device.
