**TransPen**

Boost your productivity with TransPen, a high-precision active capacitive wireless stylus designed for seamless interaction with your touchscreen device. Its transparent design combines functionality with aesthetic appeal, providing precision in every stroke. Enjoy true 5D tilt pressure sensation, palm rejection technology, and up to 8 hours of continuous use. The stylus offers quick pairing via Bluetooth v5.0, eliminating the need for cables, and is compatible with iPads launched after 2018 and all applications supporting the Apple Pencil. Elevate your digital experience with TransPen.

## Increased Productivity

Use TransPen to take notes, sketch, mark up documents, and increase your speed and productivity

## Transparent Design

TransPen boasts a sleek and modern design with transparency, offering both functionality and aesthetic appeal for precise and transparent interaction with your touchscreen device

## Tilt Recognition

This stylus is equipped with a true 5D tilt pressure sensation that lets you vary the width of your stroke

## Palm Rejection

TransPen Features palm rejection technology so that when it's in use, only the stylus will register on your screen

## Long-Time Usage

This stylus is equipped with intelligent power management and auto sleep function and up to 8 hours of continuous use

## Quick Pairing

Easily pair your TransPen stylus to your devices via Bluetooth v5.0. Now you won't need cables and can use this stylus with full wireless freedom
