

Laptop Cooling Pad with Silent Fan Technology

AirBase-6

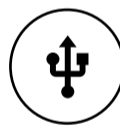

AirBase-6 features a high-speed fan that generates cool air to keep the laptop running efficiently and prevent overheating. The rubber grips on the surface of the AirBase-6 keep your laptop in place apart from the multi-level stand providing a sturdy workspace. The fan speed can be controlled, to maintain an optimum temperature of your laptop. The fans work to dissipate heat quickly and work silently. The device plugs directly into the USB port and no additional power is required.

Features

AirBase-6 boasts silent fans that generates 50 CFM of airflow to maintain the temperature of your laptop.

The laptop stand plugs directly into a USB port and does not require additional power.

The stand weighs a mere 770gms and is quite slim so that you can take it easily wherever you go.

You can adjust the laptop stand's height to get the best and comfortable viewing angle.

Specifications
