

Wireless Charging Alarm Clock
with StereoWireless Speaker
and Handsfree Support

No more fumbling with charging cables late at night or knocking things off your bedside table. Cayam features a Qi standard wireless charger to effortlessly recharge your phone simply by placing your phone on the induction charging surface. This multi-function LED alarm clock produces incredibly robust sound from the 8 Watt speaker and multiple connectivity options let you playback wirelessly or via TF card and AUX

Features

- Basic and easy to use, this single-day alarm features a gentle ramping tone and has a snooze function
- A multi-function 8 watt speaker that delivers sound that is powerful and crisp
- Easy navigation through your playlist with the help of a soft touch control panel
- Play any track using various connectivity options available. Play it wirelessly or via the 3.5mm audio jack or the TF card slot
- Supports auto-searching and storage of FM stations with ease
- Simply place your Qi enabled devices on the non-slip charging surface that’s designed to help secure your device while charging
- Charge your smartphone at optimum speed
- The power output adapts to your devices to provide the safest maximum charging output per port
- Compatible with all Qi compatible and USB chargeable devices
- Features a smart circuit which ensures protection from overheating, over-current & short-circuit
