GaNPort-140W is a single high-speed charging station for all your devices that lets you upgrade to super-speed 140W charging. Charge your USB-C compatible devices with the 3 Power Delivery ports to get faster charging speed than standard chargers. The 18W Qualcomm Quick Charge 3.0 port lets you charge compatible devices at 4X faster speeds. Featuring Gallium Nitride components this charging station provides an efficient charging experience with less heat and a compact form factor. GaNPort-140W comes with a stand to prop the charging station upright, and an AC plug-in cord that adds convenience to your daily charging routine. This charging station also has a built-in multi-protect safety system with high-temperature, over-current, short-circuit protection, and adaptive charging to give you a well-rounded charging experience.

GaN technology

GaN components waste less power and produce less heat, thus providing a more efficient charging experience

3 USB-C Power Delivery 3.1 Ports

Equipped with 3 USB-C Ports this charging station can rapidly charge 3 power-hungry USB-C devices simultaneously at speeds to 140W

Qualcomm QC 3.0 Port

Charge four times faster than conventional chargers at speeds of 18W with QC 3.0 port

AC Power Cord

GaNPort-140W comes with an AC plug-in cord that provides more power that could fast charge four devices at the same time at 140W

Convenient Design

GaNPort-140W comes with a stand to prop the charging station upright adding a touch of style and convenience to your desk space. It is also compact enough to be easily portable

Adaptive Fast Charging

The multiple charging ports adapt according to the device connected for the safest maximum output per port

Safety Protection

This charging station has a built-in multi-protect safety system with high-temperature, over-current, and short-circuit protection
