High CRI REAL COLOR

Super-easy to set up, Horizon-50 helps battle eye fatigue by lighting up your desk. This 50cm monitor light bar works perfectly on top of your curved monitors and ultra-wide monitors, giving you more valuable space on your desk. With a 45° angled design, Horizon-50 only illuminates your desk and keyboard, enhancing immersion and focus while eliminating reflective glare on the screen. You can customize the color temperature or dim the light using the stylish wireless remote controller. It also features auto-dimming and sleep functions along with a memory function to remember the last setting. The ideal choice for students, designers, and business office workers, Horizon-50 ensures comfortable viewing while you work and enhances your productivity

### 50cm LED Monitor Light

This 50cm monitor light bar works perfectly on top of monitors and Laptops, giving you more valuable space on your desk

### 45° Light Angle

With a 45° angled asymmetrical optical design, this curved monitor light bar illuminates your desk and keyboard, enhancing immersion and focus

### Declutter Desk Space

Horizon-50 can help save precious desk space if you're struggling to fit a desk lamp to help illuminate your workspace

### Stable Design

Horizon-50 is designed with an upgraded weighted clip that hangs on the monitor, so it is stable and doesn't shake

### Smart Touch Controls

Horizon-50 comes with touch controls that can be used to switch on/off, dim the light, adjust the color temperature, and even set a 2-hour auto sleep function

### Anti-Glare

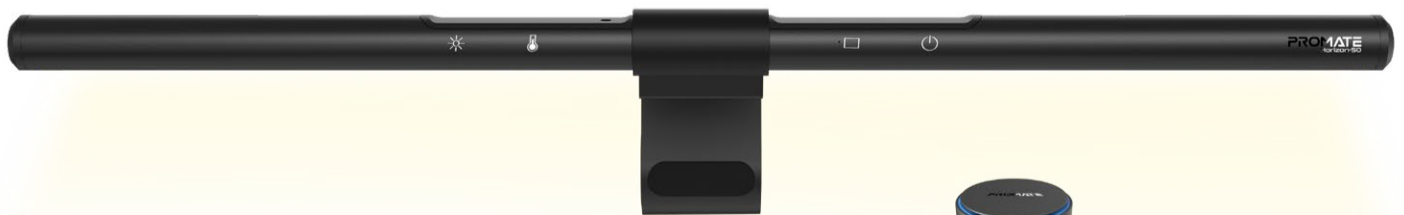

Battle eye fatigue as this monitor light evenly distributes light across your viewing area as you work while correctly eliminating reflective glare on the screen

### Wireless Controller

This monitor light comes with a stylish wireless remote controller that integrates multifunction control and allows you to easily customize the light based on your preference and requirement

### Broad Compatibility

Uniquely designed front and rear double adjustment cover fit most monitors with a 21"-49" screen size
