

Quiver

3-in-1 Retractable Magnetic Charging Cable

Carry every cable you need in a single portable retractable holder with Quiver. Its portable and retractable design lets you conveniently carry Quiver in your bag without getting the cable tangled. The strong magnetic hold ensures a stable connection while the Power Delivery support ensures quick charging.

- Over-Charging Protection
- Data and Charge
- Universal Compatibility

3-in-1 Cable

Carry a single cable for all your devices, as Quiver features USB-C, Lightning and Micro-USB tips for maximum convenience

60W USB-C PD

Charge your Android smartphones and tablets as well as Laptops up to 6X faster than traditional cables

20W Lightning PD

Charge the iPhone 12 series and above at 4X faster speeds than traditional cables

Auto Recoil

Quick retractable cable lets you carry quiver with ease when traveling and also charging on the go

Durable Cable

Tested to 50000+ bend tests to ensure the cable remains durable and pull resistant

Stable Connectivity

The strong magnets ensure the connection is always stable, reduces the risk of disconnection and makes charging faster and smoother

Magnetic Connectors

Connect the connector into your smartphone and the cable connects automatically for quick attachment and detachment

Travel Ready

Its portable design lets you conveniently carry Quiver in your bag without getting the cable tangled

Specifications
