

# Car Charger

# with **Quick Charge 3.0**Power Delivery Ports

TransDrive-80W is the perfect accessory as this car charger has dual USB-C ports with 30W and 20W Power Delivery along with a 30W Quick Charging 3.0 port, in a unique transparent design. This elegant car charger can rapidly charge your power-hungry devices like laptops, tablets, smartphones, etc. on the go. This mini, rapid car charger is constructed with premium heat dispensation material and IC Technology to provide the fastest possible charge in both ports safely. Stunning finish and super speed charging make TransDrive-80W the ideal charging solution to power your drive.

#### **Features**

TransDrive-80W has a transparent design to add a touch of style to your car's interior to give you a one-of-a-kind charging experience.

This ultra-fast car charger also boasts a USB Quick Charge 3.0 port that provides 30W ultimate fast charge for compatible devices.

The protection chipset in the TransDrive-80W protects your devices from over-charging and short-circuiting.

Rapid charging for just about any smartphone, tablet, or other USB-C and USB-A compatible devices.
