

Tweeter-4

Universal Digital 3.5mm Desktop Gaming Microphone

Adjustable Neck • HD Audio Recording Quality • Plug & Play

Quick Guide

Usage Instructions

1. Connect the microphone with 3.5mm audio plug.
2. You can increase and lower the volume button on computer according to your needs.
3. It's the mute/umute switch by pulling it toward the bottom you deactivate the microphone.
4. According to your needs, open software like gaming, skype, singing and audio recordings, the microphone is ready to use.
5. The microphone doesn't require any driver, you just have to plug it in and it works.
