Instructions:

Prepare canvas pieces: fold under according to pattern below. Crease gray area. Once folded, canvas should measure 54x12 squares for body, and 10x14 for bottom. Double check! Locker hook body of basket working "in the round" by using 1/2"W cotton strips. Overlap canvas by 4 squares to create a circle. Use Rayon Ribbon or other ribbon to locker hook top three rows. Pull up extra high loops. Approximately 1/2" high. Locker hook bottom piece with cotton strips using "spiral technique." Sew in tails on both pieces. Assemble pieces together by using cotton strips and tapestry needle. Use extra stitches at corners as needed to cover canvas. Thread ribbon through tapestry needle and whip stitch the top of the basket to finish edge. Use Quick Grip adhesive or similar to attach floral accent. Let dry. Enjoy giving as a gift with treats, as a business card holder or potpourri basket!
