

# ANGELICA

## FABRIC SOFTENER

*plant based*

### ORIGINAL OR LOTUS & CAMELLIA

Angelica is a naturally-derived fabric conditioning concentrate that effectively softens, conditions, and deodorises fabrics.

- A technologically superior anti-static system ensures the fabric maintains its soft and comfortable feel.
- Gentle enough for use on woollens and delicates and performs without irritation to skin or detrimental effect to fabrics.
- Restores the fabric’s absorbent quality, making it an unbeatable choice for towels and nappies.
- Concentrated formula delivers outstanding economy and reduces landfill potential.

FEATURES	BENEFITS
Dual Action Fabric Conditioning Actives	1. A blend of two biodegradable fabric conditioning actives provides superior performance with anti-static action.
Build-up prevention technology	1. Ordinary softeners can build up on fabric and create a waterproofing effect. Our blending technique balances softening efficiency and rewetting ability, inhibiting the waterproofing effect. 2. Towels remain absorbent and all fabrics are given a natural, visible softness
Gentle Formula	1. Gentle enough for use on woollens and delicates and performs without irritation to skin or detrimental effect to fabrics
Mild pH	1. Buffered with citric acid to ensure the fabric surface is normalised to the pH balance of the skin 2. Removes and neutralises any alkaline residues from the wash cycle
Highly concentrated actives	1. Ultra-concentrate ensures maximum economy 2. Reduces amount of packaging and landfill potential
