

## Important Ordering Instructions: Please Read...

- **Make a separate order for every week of availability.** Our backend system (and customer service team) will thank you. We're doing our best to be an online provider but it is new to us. Plus we don't have the space or staff to keep plants you order mid-April alive through mid-May. Please follow this one rule and everything will be much smoother. Thank you.
- **Availability generally corresponds with when plants should go in the ground.** That's why we don't offer our Hot Crops until May. While you could put tomatoes/peppers/eggplant in the ground earlier, they won't be happy in cooler weather. There's logic in this list. Trust us, we're here to help your garden thrive.
- **Contact-less delivery or curbside...** Nobody knows how long Shelter in Place will last. It might end April 30, it might not. If you don't want to pay a delivery fee for each week's order, consider curbside. If you change your mind, we can add delivery back in. Who can predict the future right now? Not us.
- **Important note on delivery** For the safety of our delivery drivers they will only take your items to your curb or front door, not up stairs to your roof, not inside your building... just the curb. No exceptions, sorry.
- **If you have a huge order** (lots of plants plus multiple bags of soil or other heavy products) pick curbside at checkout and send us a note if you actually want delivery. We'll arrange something beyond our basic delivery service.
- On that note... **please don't hoard.** There's enough for everyone and we think this summer food gardening is going to mean a lot to people. Order only what you need so others can enjoy growing veggies, too...

April 16 - 19

April 23-26

May 7-10

May 14-17

May 21-24
