Stille retractors

Distributed by:
ZEPF SURGICAL
800-552-3441

Stille retractors are high-polished and have perfectly beveled blades and prongs to ensure atraumatic action on sensitive tissues and wounds. The design of the handles ensures a comfortable grip. A Stille retractor will last through many years of use.

There are three general types of retractors:

Hand retractors, which are used manually to hold incisions and organs.

Self-retaining retractors that maintain retraction by themselves through a locking mechanism.

Specula, which are a combination of the hand retractor and the self-retaining retractor.

GILLIES/STENSTRÖM

Small skin hook with perforated handle.

- 108-24108- Gillies/Stenström 7.5 cm 3"
- * 108-24109- Stenström/Stille 7.5 cm 3"

108-24108-

108-24109-

GILLIES

Skin hook with small or large hook on long flat shaft.

- * 108-24110- Small hook 19 cm 7.5"
- 108-24112- Large hook 19 cm 7.5"

108-24110-

108-24112-

KILNER

Delicate skin hook with flat shaft.

- * 108-24120- 15 cm 6"
