

RCS / Le Griddle Dual Plated Cooking Accessory

In the meantime, here a few dos/don'ts

Do: Remove the cooking grids and any flame tamers, briquette trays, zone separators or heat tents from your grill before installing the griddle.

DO: Place your new griddle in your grill with the grease trough closest to the front of the grill.

Do: When not in use, remove the griddle and store it in a cool, dry place out of the weather.

DO: Clean your griddle at the end of each use.

Do not: Let the trough accumulate TOO much grease/debris before emptying and allow the grease tray to cool before attempting to remove it.

Do not: Use the griddle over an infra-red or sear burner.

Do not: Use the griddle on anything but a gas grill.

Do not: Use more than one griddle on your grill at a time!

When using the RSSG4 griddle in the RON series RCS grills, it is necessary to remove the original flame tamer and replace it with the cut-away one provided in the Le Griddle box.
