Housings bars and square extension tubes (13cm) from gate may be needed. Depending on how many extensions are being added, insert the appropriate square extension tubes (C) into gate ends.

Connect the bar (D) to one upper extension housing (A) and one lower extension housing (B).

Push assembly over extension tubes. There should be no metal showing from extension tubes. It may be necessary to apply pressure to tubes to ensure they are fully inserted into gate ends. Slide spindles into extension tubes.

PLEASE NOTE: Do not over tighten the adjusters
