

# My First Mirror Friend

**Yookidoo**<sup>®</sup>  
celebrating discovery

Explore & more with Yookidoo's large and sturdy baby safe mirror. Attach to crib, gym & stroller or place upright on mat.

Place baby safe mirror upright on the floor or play mat during tummy time.

During the earlier stages, the mirror will encourage baby to lift his head and reach out, thus promoting eye-hand coordination. At later stages, exploring the mirror will strengthen baby's shoulders and upper body.

My First Mirror Friend easily attaches to the stroller too, and its multiple textures encourage sensory play and enhance tactile stimulation.

## Features

- A large and sturdy baby safe mirror with multiple features!
- Features an adorable crinkly dog friend with different textures, a back side teether and a hidden ball for a surprising rattling effect.
- Large alligator clip for easy connection to the crib or to the stroller.
- Stands upright on floor and is great for tummy time.
- Keeps baby's attention.
- Especially designed for babies to grasp, shake and explore.
