

Spin N Sort Water Gear

Yookidoo[®]
celebrating discovery

The must have bath toy.

The Yookidoo bath toys will surely make the time in the bath extra fun. The gears are attached to the bathtub or wall with suction cups, where they rotate when the child pours water at them. The "teeth" of the gears can be removed.

The supplied glass is used to pour water over the gears. There are small holes at the bottom of the glass so that the water can come out. The glass can also be attached to the bath or wall with a holder with a suction cup.

Features

- A water gear toy with a shape and color sorter that attaches to the tub. Sort and fit the 3 different gears according to the shapes and colors
- Pour water and spin the whole gear mechanism, creating a chain of reactions
- Test tube water container with 1-10 numbered volume marks and a holder that attaches to the tub for playing and storage
- Promotes fine motor skills, accuracy and hand eye coordination
- Supports STEM by introducing children to sorting, constructing, and putting physics & engineering into play

| Specification | Length | Width | Height |
|----------------------------|----------|-------|--------|
| Product (mm) | | 160 | 69 |
| Carton Display (mm) | 180 | 75 | 195 |
| Outer Carton (mm) | 378 | 245 | 217 |
| Weight | 0.4 kg | | |
| Carton Weight | 0.6 kg | | |
| Outer Carton Weight | 2.2 kg | | |
| Pack Size | 6 | | |
