

The Eezy S Twist is designed with a maximum of smart features that make life easier for parents while ensuring a comfortable ride for children from birth to approx. 4 years. A smart one-hand mechanism rotates the seat unit from parent-facing to forward-facing and back at the push of a button. Made for urban parents, the Eezy S Twist is an agile city stroller that offers premium travel features from 4-wheel suspension for smooth rides on all terrain to a fully reclining backrest for long naps. The one-hand folding mechanism turns this sleek stroller in to a compact package within seconds, while leaving your other hand free. In its compact, self-standing fold the Eezy S Twist can easily be stored anywhere and is even small enough to be approved as carry-on luggage on planes. As a 3-in-1 travel system, the Eezy S Twist is compatible with CYBEX Cloud Q infant car seats and the baby cocoon, offering functional designs in one design language that take you from the car to the streets in style.
